Spiritland Vision Is Seen, Claim

Differ Spirit W a.d., core Daniana we I want to write of a vision I had.
We had been out late to a barn

dance and party in the country and it was I a. m. when we were soing to bed. Let me assure you the visions were not welcome. Their begiphings were all alike—always wide: awake-could strike, talk, etc. Had three large windows in the room—shades upno dark room here. About to get in bed after blowing out lamp, when I noticed part of one window and wall gradually fade and as usual the ciear sky, such as appears after a

rain shower in spring. Info. this atmosphere this much me its beginning—a very irregular colony lump of yellowish rocks of hai, too close to sun to cool All dry hear and no moisture. Wide davities or cracks in this ob-

longimas- of hot reck.
Millions of years and the yellowish rock had dropped away from the affect rays of the sun, and moisture appeared. No water visible. Little human insects appeared, skin and bone, walking on two feet, mininiuse men. Just a few, one and a helf inches in height at the mostmagnified through space. Whitish reliew plant life. Very small and withered looking; insect man also whitish yellow. Insect animal; saw three only, like man and plant life-withered whitish yellow.

I am writing what I saw and be-lieve to be the truth and nothing

We have water in little straine.
Plant life is green—and larger. Man
is about twelve inches in height. Sun no longer scorening. There is ansa now, but there are still a lot of places, where there is still but rock More million if years and what a thange! Monster trees, animals and then dark green trees, water. Men fed takin, black long hair, covered over parts of body, very coarse. More your uson years and man had been achieved, the people went had been achieved, the people went wild with joy. Bells rang, horns blew and freworks celebrated the no clothing nor shelter made by man Fany kind. The trees were dense no tall. Cool here now. From that period I was not to know until the superman perior. A voice tilitae superman perior. Kleave as a closed book. From now

Foreknowledge of Events

Editor Spirit World, care Oakland * ten and there was a printed busi-TRIBUNE-Dear Sir: ten and there was a printed busi-ness address in one corner, but

This is one of hundreds of similar experiences: In 1913 my husband was a manistr in a small country place in New York state and had been in correspondence with a church out West in reference to a call from them. Several weeks passed and receiving no word we dismissed the subject from our minds altogether. All the communications from

the people were in handwritingthis is very important in regard to what follows.
One morning on waking I said,

"Oh, I have had such a wonderful dream. I dreamed that the people in Oregon called you, the writing on the envelope was typewritthe pazzling thing about the affair was that they offered but half of what they had originally offered as stipend."

In that day's mail came a let-ter, typewriten and with the ad-dress of the writer's husband, who was a printer, in the corner. My husband staved only three months, but the people, as is usual in their organization, gave him sic months' sulary, making the amount I saw in my dream.

I could, had I time, tell you of a great number of experiences of fercknowledge, telepathy, attracting what I wanted, etc.

MRS. T. WOODWARD.

At last, in sheer desperation from my recent letters, and see if in any any, thing I had forgotten to answer. But the instant I now glanced at time I rooked up from any work sure in a country to a first that I had found what I there stood that beautiful form of a rection to my hand, under the ex- from same, assuring me of success I do not know why I came to such was looking for. Lily Dale Fakers' Nest, Says Lewis

CINCLAIR LEWIS, young Duovelist and short story writer, today takes a fling at the spiritualists. He does not directly assail the distinguished supporters of the belief in man's power to communicate with the dead-Sir Oliver Lodge and Sir, Arthur Conan Doyle-but he picks flaws in the methods in rogue at that strangest of all colonies-the Lily Dale spiritualist assembly in upper New York State.

Mr. Lewis spent considerable time there investigating seances, slate writing, spirit messages and similar phenomena. Only he doesn't call them phenomena. He thinks it is all tommyrot. He has some big men against him, but what he says is as sincere as it is interesting.

ELDORA V. M. FRANKE. 2923 West St., Oakland.
Here are some simple recipes that
are splendid for kiddle cooks. They
are all easy to do—and when you know how to do them you have REALLY STARTED in to be a good housekeeper. Anyone can learn to do a few silly, easy things—but the

simple, common things are the worth

THIMBLE BISCUITS. 1 cup flour.

2 teaspoons baking powder. 14 teaspoon salt. l tablespoon butter.

% cup milk.
Sift flour, baking powder and salt ogether well. Rub in butter with your finger tips until there are no lumps left. Pour milk on gradually, enting it in, but not stirring as you would cake. When you have a soft dough, turn onto a well floured board, rell out lightly until they are about quarter inch thick and cut in tiny shapes with a large thimble. Place in buttered pan and bake in VERY hot oven for five minutes.

These biscuits, kiddles, although they sound like play things, are made just as any biscuits are. all GOOD biscuits is to handle APPLE SNOW.

Pare and slice apples. Cook, with was. They gave one year and races out and took ner in.

for home and hopped into their beds.

many presents and then the lady adopted her and she lived happily look for ghosts.

(Three Oakiand young people have been engulfed in the earth by an earthquake, They are considered dead by their relations, but are in reality unhurt and going through a series of remarkable adventures in the interior of the earth. They have fallen into a world inhabited by a strange race of people who have built a marvelous city in the great central cavern. To this city they conduct the children. this city they conduct the children, after an exciting chase by the enemies of the race—baboon-like creatures. The city is wonderfully constructed. lighted by electricity and supplied with every civilized convenience.)

> By AUNT ELSIE Chapter Ten.

For an instant the boys stood ized, while the mass of horrorstricken natives watched and waited. Before them, on the pavement, lay the pool of blood with the stained rags of Betty's dress that mutely, but fearfully, showed her tragedy. That she had been killed by the giant din-And that the act was of double horror to these kindly people was also evident. Not only was it a monstrous crime against their laws of hospitality-but it struck at feelmous beast had roamed the undercaptive gophers they petted in lieu of kittens. Zoondrun, the dinosaur, was greater even than the king. In that world. For his jeweled net the choicest jewels were saved. And to given her happy life. Something in her presence had at last roused the huge animal from his peaceful state and made him revert to the fierce savagery that had characterized all roamed a manless world. He had been born in the under darkness, folded the crust of the earth above his parents, and, living in these neaccful shadows, cating only roots and grubs and tiny burrowing things he had forgotten the blood fierce kind. But at Betty's touch it had returned-to do what awful horror they could only guess. These thoughts flashed in an instant through their heads as they stood dumbly staring at the sign of that sickening struggle. Then their stupor snapped and rage swept over both Fred and Bill-rage that anything should have dared to hurt that merry little comrade who had shared their joys and squabbles all these years whom they had sniffed

and read the following:

"I know," said Roy, who had been hurriedly reading it. "It says-Villa crushed. Federals win." They rushed the news into print and then gathered around Roy while

said Roy. "You see he fastened verywell together to make it one word. The first letter in verywell is the third letter in will is L. We now have VIL. Beginning again in the same order, the first letter in lay is L, the second letter in man is A—and so on to the end."

HAROLD MARQUIS.

That's a great code chums. Some of you ought to write code letters to each other and use it.

ARTHUR HALL, 1425 E. 31st St., Oakland.

Dear Aunt Elsie-I hope you have room for another I enjoy our page so thatal want to belong. Here is something a Sunday school paper. It is a handy tray for carrying wood, ap-

les, potatoes or any other thing.

Take a wooden box as long and wide as you wish the tray to be and cut it down until it is about 5 inches deep. Plane the box until it is smooth. Make two uprights of 1 14inch wood and a broomstick for a handle, as the drawing shows-and handle, as the your tray is done.

ARTHUR HALL.

FORD (FLIV) McCORKLE. Dear Aunt Elsie-

Here is a plan for a sub chaser, it ought to be about 2 ft. long and in, high at the bow and 4 in, high at stern. Make bottom, brace and ack of 1/2-in. wood and use very thin wood for sides.

When made, fill cracks with tar and see if it leaks. If it does not it is ready to install a small motor, propeller and dry cell battery to run -placing them as drawing shows. If made well, it will clip the water at ten knots per. Your pal, PLIV McCORKLE.

We're certainly obliged to Commodore Fliver for that suggestion, aren't we, pals? and I think we'll turn Oakland Into a naval base in just about twenty-four hours. PAUL MERCHERT.

2493 Mavis St., Oakland. Once upon a time there was a widow with two sons. They were so poor they could not have a Christ-mas tree or any presents. Christmas morning they woke up very sad hecause they did not expect anything. But when they got in to the parlor they saw a beautiful tree with a pile of presents. They danced with joy and called their mother.

Underneath the tree Jack found a box marked, "Do not open!" But Jack opened the box and at once out popped a genie! He took Jack to an old haunted castle. A crowd of ghosts and other spirits surrounded them. The genie let Jack go for an and Jack ran away with the gende after him. He fell into a well and then into a big pit of mud. but the genie pulled him out and took him back to the castle, where the genie pinched him and he yelled, "Help!

Heln All of a sudden he saw a sword and caught it up and killed the ghosts and genie. He rescued a beautiful lady who was imprisoned in the house and they were married and lived happily ever after. PAUL MELCHERT.

MYSTERY BOY. A little new chum, seven years old, has carefully copied out a verse for it-and it is so merry that I now you'll all like it.

Up from his north polar palace so jolly, Leaped merry Saint Nick-and away and away!

The moon sert of tiploed her way through the sky, The chimneys agog kept a top weather eye

For Kris Kringle! Heigh-ho, here he comes at last! Down he goes, but no sooner turns his back Than a mettlesome rocking horse

jumps from his pack! "I'm marked for a youngster named Reginald Briggs, But I care not two figs for this nur-sery life, So I'm off, sirs," he said.

"To look for a youngster named Pat-

rick or Ted."

# **\$67**,000 Paid By Ince for Five Stories

HOLLYWOOD, Jan. 10 .- Douglas Maclean, the latest of Thomas H. Ince's photoplayers to achieve star prominence, was a stage actor of established reputation before he embarked on a motion picture career. He played juvenile and lead roles in stock companies, supported Maude Adams in "Peter Pan," "The Legend of Lenore," and other J. M. Barrie plays; Maude Fealy, Marjorie Ram-beau, Mary Servess and Jane Gray On the screen he has supported Mary Pickford, Alice Brady, Anid Bennett, Vivian Martin, Frances Nelson, Gail Kane, Clara Kimball Young, Mollie King, Dorothy Gish

and Dorothy Dalton.

MacLean was born in PhilaLiphia and educated at the Northrestern University preparatory school at Evanston, Ill., and at the Lewis School of Technology in Chicago. His father, a minister of Washington. D. C., wanted him to be a mechanical engineer, but the son, after bidding goodbye to enforced study, met Daniel Frohman, con-fided to him his ambition to become an actor and the engagement with Mande Adams followed. With Doris May, MacLean has es-

tablished himself as a star of the first screen magnitude. Doris May will be remembered by picture fans as "the girl" with picture fens as Charles Ray in "His Mother's Boy,"
"The Hired Man," "Playing the
Game," "The Law of the North,"
The Girl Dodger" and 'Hayfoot,

Strawfoot."
Producer Ince has an excellent screen program outlined for his two new stars. He paid \$67,000 for the screen rights of five stories, including Twenty-three and One-half Hours The other stories are Ankle," by May Tully; Your Husband Doing," by V. Hobert; "Some Honey-by Charles Everbard Hall moon," by Charles Everbard Hall and Mr. and Mrs. Not Married," by Aaron Hoffman. These will be produced on the screen during 1920. In discussing his enterprise Ince recently said: "Douglas MacLean and Doris May possess the rare attributes of youth, charm and intellect; and I am giving them every aid I can com-mand in good direction, skilled support and stories by best known authors. I am fully aware of my responsibility to the public and exhibitors, and I expect the hazard of the new venture with complete confidence in my judgment."

### Only Four Pictures For Mary in 1920

During 1920 Mary Pickford plans to make not more than four photo-plays. These will be released through the United Artists' Corpora-tion—made up of Miss Pickford, Charles Chaplin, Douglas Fairbanks and D. W. Griffith—and known in the film world as the "Big Four." Miss Pickford believes that by de-

een purchased while negotiations are now under way for others. Between each picture the little star plans to take at least a month's relaxation, thus enabling her to keep a freshness and newness of spirit in every Pickford screen play.

Winston Churchill and Emerson Hough are in Los Angeles on busiconnected with the filming of their fiction works by Benjamin D. Hampton, the photoplay producer and magazine publisher.

"The Fortune Teller," one of Broadway's most successful plays last meason, has been chosen by Marjorie Rambeau and Albert Capellani to be picturized for Miss and John Dision has been chosen to Rambaau's debut as a Pathe star. No more fitting vehicle could have completing the cutting of "Polly- "The Hushed Hour," reasuring been found for the famous actress anna." ### Wild Animals in Pictures Doped? No! Says Actor

Edwin Wollack, who is playing in a Tom Moore feature, has had considerable experience with wild animals working in motion pictures. He save there are some mistaken ideas about the methods employed. "Some persons believe," says Mr. Wallack, "that wild animals are doped for their work before the camera in order to insure safety for the men who must be near them to handle them. But I have never seen them doped. They are the untained beasts tled betwee made them, and there are days when not even the keeper dare go into their cages, much less any man or woman whom they do not know well."

### British Develop Two New Types of Battle Tanks

(By Universal Service) LONDON, Jan. 10. (Special Cable Despatch—The British tank corps, according to the Daily Mail, has developed two new types of tank, one with a speed of sixteen to twenty miles an hour, which can be operated at about one per cent of the type used in the war, and another which can be operated on both land and water. It is expected; that these two new types will revolutionize warfare.

months, says Mrs. Griffith No 2.
who at present has a 15-months-old
baby to take care of and no means of support. Several weeks ago Grit-fith left home and has not been back since. The complaint states that he went to Stockton, California, where he married Anni Wolff and moved with his third wife to Reno, Nevada believing that he establishing his residence in Nevada he would escape the possibility of being brought back to California to face charges of bigamy. In the meantime he had secured his final decree of divorce from his first wife.

When the complaint was Oakland police officials immediately petitioned Governor Stephens to issue a requisition for Griffith's extradition from Nevada. The governor stated that while it was not a customary procedure in such cases, this particular case was of such a flagrant nature that an exception would be made. The document authorizing the extradition of the alloged bigamist was issued yesterday. and this morning an officer left for Nevada for the purpose of bringing Griffith to Oakland.

### Youth Admits Looting During Alameda Fire

ALAMEDA, Jan. 10 -- Investigation of the charges against four boys arrested or looting at the time of the fine on Hhursday resulted today in Jack Sutherland, one of the lads admitting he was the only one of the quartet who had in his posses-sion any merchandise Sutherland had some canned goods in his pockets Lid and Ray Hassey and Harry Brown, arrested with him, were more by standers, the lad states Majnuel Baratios of Oakland, an adult, admitted the theft of a pair of shoes in court this morning His case was put into the hands of the probationo office

# Talented Berkeley Girl Will Forsake Society for Filmland

Irene Bacigalupi, Dancer ,is Called to South by Leaders in Movie World.

BERKELEY, Jan. 10.—Lured to the southland by tempting offers of moving picture directors, Miss Irene partment at the request of Commismovable body.

Bacigalupi, talented yong dancer, will sioner F. F. Morse. The survey is Koski was sued by Charles Wercount for BERKELEY, Jan. 10,-Lured to

she has returned to Berkeley to pre-in, a report from the civil service pare for a career in the world of board on the needs of the health de-

Miss Irene

service commissioners.

The survey follows the lengthy

report recently submitted to Morse by the state board of health, con-

taining the results of an investiga-

in the city made by the state health

The report contains the suggestion, among others, that the city should

take steps to spend more money on health problems. According to Dr.

Daniel Crosby, health officer, the re-organization of the department is badly needed and should result in the placing of a full-time trained

health officer in charge of the de-partment, instead of a part-time, untrained official.

SUNDAY MORNING

WASHINGTON, Jan. 10 .- No confirmation has been received here of the reported revolution in Germany and the overthrow of the Ebert government as reported from Denmark. Somie uheasiness was felt, however. over the fact that the last dispatch received from Berlin, was dated January 9 and hinted of a Spartacan

By CARL D. GROAT. United Press Representative. ness was felt here tonight over the political and economic situation in view of the vaguely expressed threats of a general strike.

There were suggestions in some quarters that big industrial plants may shut down if the workers' coun-ell law is passed as drafted, while rådical labor leaders hinted they may call a general strike if the law is altered so it is unsatisfactory to

AFomenting of a railroad strike at this time was considered significant, but its result so far was called minor walkouts in sections of western Germany which are of little importance to the nation as a whole. Radicals were showing more activ-

ity in all circles than for some time. their plans evidently were only for employment of economic weapons. The majority Socialists, it was reported, will not join any general strike movement and will work to maintain the calmness and sanity of the population.

Radicals raided a food shop on the outskirts of Berlin today, stoping traffic on trolley lines for some time. Police restored order before there had been any great amount of

# PALMER CLAIMS

PHILADELPHIA Jan. 10 -Attornev General A. Mitchell Palmer, here tonight to attend a dinner of Swarthmore college men, said he did not believe the breach between William I. Bryan and President Wilson. Jackson Day dinner, would cause a split in the Democratic party.

"The peace treaty will be rainfied." said Palmer, "with reasonable reser-Wilson. But while the ratification of the treaty will not be an issue in the treaty will be discussed in the

lowed to make the race. It is his ball. Let him try to make the run for goal with it, is their argu-

"Another prediction was that henceforth there will be a dimuni-tion of arder and abatement of ambition among some men who have been freely mentioned as possible aspirants for the Democratic nomination. The prospect of a divided Democratic vote is appailing to them, it is said, overshadowing the appeal of the

Herbert Hoover continues to figure in an interesting and puzzling way in the political reports from Tacoma this week comes word of the organization in Hoaquin county, the one unshakable Republican stronghold in Washington state, of a Hoover-for-President Club with a membership embracing fifty of the most promi-nent citizens. The club has wired Hoover for permission to place him before the country as a candidate for the Republican presidential nomination, but the report does not indicate that he has yet re-

In New Hampshire where it has been assumed that the delegation would be for General Wood without contest, a recalcitrant Republican faction has started a Hoover boom. In Delaware, on the other hand, it is for the Democratic nomination that Hoover is being boomed, a despatch from Wilmington saying that his is about the only name heard in Democratic circles. In Minnesota, too. Democrats are talking Hoover, with

considerable sentiment favorable

ance with a provision of the league of nations covenant, is ex-pected to issue the call for the

league's first meeting, for which January 16 was designated. The league provision directs that the call shall be issued by President Wilson within fifteen days after the ratification of the treaty. But inasmuch as the United States has not yet ratified the treaty President Wilson's action can be as an individual only.

te Attorney General Palmer. REVIEW OF OUTLOOK IN VARIOUS STATES.

Some other political develop-ments of the week are the following.
In Wisconsin the LaFollette men have set out to control the delega-tion to the Republican National Convention, with a view to voting it for LaFollette for President, if he becomes a candidate. This means a fight that may split the party in the state.

The Democratic county committee of Adams county, Illinois, has formally proposed former Senator James Hamilton Lewis for Presi-

In Minnesota, organization of

Lowden sentiment is to begin next week in an effort to head off the Wood movement, which is making headway.
In Oklahoma, Wood and Lowden workers are conducting cam-paigns and the Democratis have

raised a fund of \$50,000 to promote the presidential candidacy of Senator Owen. In South Dakota the lists have been made up for the March 23, primaries, with Woods, Lowden, Johnson and Poindexter to be

voted on by the Republicans.
It is accepted that the contest between Wood and Lowden. In Pennsylvania it has become a real contest to elect Republican delegates pledged to Governor Sproul to keep them from going to General Wood, In Connecticut Lowden senti-

ment is growing and a fight on National committeeman Kind is hurting General Wood's chances of getting the delegation.

Rheumatism

A Home Cure Given by One Who Had It

Who Had It

In the apring of 1893 I was attacked by Eluscular and infammatory Rheumatism. I suffered as only those who have it know, for over three years. I tried remedy after remedy, and doctor after doctor, but such relief as I received was only temporary. Finally, I found a remedy that cured me completely, and it has never returned I have given it to a number who were terribly afflicted and even hedridden with Rheumatism, and it effected a cure in every case.

Ledridden with Rheumatism, and it effected a cure in every case.

I want every inferer from my form of themmatic thouble to fry this may relieve hearing nower, then't send a form and it is the first shappy man your name and ad from and it will send it free to fry, effer you have used it need to the process of earlier your rheumatism, you may send the price of it, one dollar, but understand, I do not want your money unless you are perfectly satisfied to send it. Isn't that fair?

Why suffer any longer when monthly. money there you to rend it. Isn't that fair?

# **CURED HIS PILES**

Now 88 Years Old But Works at Trade of Blacksmith and Feels Younger Since Piles Are Gone

The coldest active blacksmith in Michigan is still pounding his anvii in the town of Homer—thanks to my internal method of treating wiles.

Mr. Jacob Lyon, Homer, Mich.

I wish that you could hear him tell of his many experiences with oint-ments, salves, dilators, etc., before he tried my method. Here is a letter just received from him:

Mr. E. R. Page, Marshall, Mich.
Dear Sir: I want you to know
what your treatment has done for me.
I had suffered with piles for many
years and used suppositories and all kinds of treatments, but never got relief until I tried yours. Am now completely cured. Although I am 88 years old, and the oldest active blacksmith in Michigan, I feel years younger since the piles have left me. I will surely recommend it to all I know who suffer this way. You can use my letter any way you wish and I hope it will lead others to try this wonderful remedy.

### Officers of Great War Hold Election

Major William D. Barbee was chosen commander for the coming year at the annual election of officers of the Oakland branch of the American Officers of the Great War, at a meeting of the organization held in the Municipal Auditorium

last night.
Other officers elected were Captain George H. Knudsen, vice com-mander: Lieutenant Porter Shaw. gert, financial secretary. Lieutenant Louis Breuner was chosen as the fifth member of the staff. The officers will give a luncheon

in the Hotel Oakland next Wednesday, and have extended invitations to Professor Elwood Mead of the university, president of the Land Settlement Board of California, and Colonel John P. Irish to address the club in the near future on the land settlement question.

### Technical High to Open New Classes

In order to meet the increasing demand for short, intensive courses in stenographic and secretarial training, the Oakland Technical Continu-ation school will open two additional classes for registration tomorrow afternoon and evening.

The afternoon class will very day in the week, from 1:45 to 4:40, and the evening class upon Monday, Wednesday and Friday evenings, from 7:15 to 9:35. To insure individual attention these classes will be limited in number. The commercial department of the Technical Continuation High school is under the instruction of specially trained teachers and as a part of the Oakland school system is free to the public.

### Technical High Tendered Reception

P. M. Fisher, principal of the Technical high school, was tendered a reception Friday night at his home. 431 Orange street, by the members of the faculty of the school. There of the faculty of the school. There were about ninety teachers present.

The reception was in honor of Fisher as one of the pioneer teachers of this city and head of the Technical high school since it was opened in 1896. It is proposed by the school faculty to make such rean annual event in the

future.

Music, singing and dancing featured the program of the evening and many felicitations were showered upon the host.

### Civil Service to Hold Examinations

# **WILL OPPOSE**

Wilhelm von Brincken is due to arrive this morning from the north on his way way to San Francisco to light extradition proceedings. But make. First and foremost, he was seek to win back the love of his former wife, who was Milo Abercrom-bie when he wed her. And he is to do so, he says, not only because of his love for his wife, undiminished during his troubles and her divorce of him, but also because he wants 16 bring up his children as American

Henry M. Owen, his counsel, said yesterday that Von Brincken was apparently sincere in this wish. He said Von Brincken was "through with Germany." Von Brincken is to confer with Owen immediately upon his arrival and thereafter go out in search of his wife to commence efforts at reconciliation.

Non Brincken's sentence on a charge of violating the neutrality laws as an attache of the German consul's office in San Francisco was followed by a divorce complaint in which his wife, a former society favorite, cited her husband's connivance with German plotters as a grounds, is returning to begin a bat-tle against deportation.

Von Brincken was released from McNeil Island penitentiary Friday on \$1000 bond. A fine of \$10,000 which had been attached to his prison sentence was evaded by the taking of a pauper's oatah. He said The Jugo-Slavs of the bay cities bis attorney put up the \$1000 bond and all central California will

# SUPPLY HERE

So great has been the demand for individual census slips in the enumeration of population of Alaneda county through the office of Census Supervisor C. L. Donohoe in the Bacon building that the entire supply of 50,000 sent from the gov-ernment printing office at Washing-ton is exhausted. Several days ago, Donohoe telegraphed to Washington for an additional supply of 30,000 slips but no reply has been received from the national office of the consus bureau and yesterday afternoon Donohoe sent another telegram asking authorization to spend \$50 for local printing of more supplies.

Unless more slips are received or authorization for them to be printled locally is obtained, the work of the census office will be seriously hampered, Donohoe says. Distribution of the slips to corporations who have given them to their employees to slid in the census work has caused. to aid in the census work has caused in unexpected drain on the supplies and brought about the shortage.
INFORMATION IS GIVEN.

Under the incentive of threats of wholesale p rosecutions under fed-eral law, Eastbay residents have been giving the information more readily than was originally the case and large numbers of them are hronging the census office to see what they are enumerated without waiting for the field workers to come o them.

Donohoe vesterday afternoon ex-The engagement of Miss Alfreda pressed satisfaction with the progthis afternoon at 2:30 c'clock to Petersen and Stanleigh Carison came ress made by the office and prediction with the Croatian (Yugo-Slav) as a pleasant surprise to many ed that the count would be comed that the count would be com-pleted by next Friday, when the al-lotted time expires. QUARTER OF A MILLION

### Berkeley Has Lowest Death Rate in Nation

BERKELEY, Jan. 10.— Berkeley's death rate is the lowest of any city of its size in the United States, according to the statement of the Berkeley board of health.

During the year 1919 Berkeley boasted a rate of 8.18 per 1000 population. Without non-residents the rate is placed at 6.1. This rate is declared 2.5 per thousand less than the average during the past ten years.

But for 72 deaths from influenza last January Berkeley's rate would have drop-

ped to 4.92 per thousand. All of which Mayor Louis Bartlett declares should make the residents of Berkeley unusually proud of the health record of their city. The health department, the mayor says, is entitled to credit, but the climate should not be neglected.

### Gas Employees Plan for Annual Frolic

Employees of the Alameda County District of the Pacific Gas and Electric Company are making preliminary preparations for the celebration of the annual frolic given by the Pacific Employees' Association. The frolic will be held in the Oakland Auditorium the night of February 21, and will be a get-to-gether of the employees, their families and their friends. Recently members of the association produced a musical sketch, "A Love o' Lights." The music was composed by Lowell Redfield, and the words and lyric were written by Frederick S. Myrtle. Those who took part, and the characters are:

Chief Gloom, Harry Fossey; Second Spirit of Light, Miss Zita O'Con-nor; Monoxide Gas, Esquire, Clarence H. Oliver; Miss Electra, Elleen Piggott; Spirit of Service, Miss Jeauette Doub; Reverend Jay A. Bee.
John A. Britton; First Spirit of
Light, Miss Louise Jorgenson; Spirit
of Christmas, R. A. Gentis; Town
Crier, A. U. Brandt.

### Injury by Auto is Alleged in Lawsuit

Claiming that an automobile driven by F. R. Paulo and owned by the Auto Metal Works, ran upon the sidewalk and struck Maebell C. Adams, aged 14, as she was talking to two companions, suit for \$12,500 damages has been filed against the company. The accident is alleged to have happened on October 23 at Orchard street and Broadway, and

# Ten Years Younger Than His Years

Doesn't it make you feel good—cause you to straighten up and feel "chesty"when someone guesses your age at ten years or so younger than you really are? You look into your mirror, smile with satisfaction and say to yourself: mence at once to restore your energy, Well, he didn't make such strength and endurance by taking a bad guess, at that."

The point is: You're no older than your vitality.

If a man is strong, vigorous, mentally alert, fine and fit at 50 he has a better chance of living up to 80 than a man of 30 who is weak and run-down has of living up to 60. While none of us can stay the years nor stop time, we should all make an heroic effort to successfully resist the effects of time by ever keeping our vitality at par.

When you sense a feeling of slowing down of your physical forces—when your stomach, liver, kidneys and other organs show signs of weakness—when you notice

# Apparel Southern Wear

First Glimpses of the New

for Spring and Resort Wear

A preliminary showing, charming and colorful, of the very latest and most pleasing 1920 modes for beach or veranda, motoring, golfing, walking, eastern travel or California wear

individualized modes in satisfying number Suits for Spring Frocks for Sport and Dress

Embracing daintily fashioned afternoon and street dresses of taffetas, georgette, crepe de chine, crepe meteor, tricolette and other weaves.

Dashing sport frocks of fantasi, Shantung, Palm Beach, luxette, georgette and various striking combinations trimmed with resplendent sequins, beads, braidings and gold or silver threads. A collection that represents the pinnacle of the designer's creative art. An interesting style characteristic of these new frocks is the shorter skirts and short sleeves.

Prices \$39.50 to \$175.00.

Spring 1920 Styles for the Youngest Smart Set

Even if one is small and the number of years is short, it's just as highly important to have advance Spring styles for resort, Southern and early wear. In the Children's Shop, Spring announces herself with new arrivals in hats and white voile frocks.

Children's Spring Hats

The amartest of tailored models—there are drooping brims, brims that turn up all around, mushroom styles, tams, sailors, middy hats, and shaped-corn sailors. Rich grosgrain ribbon streamers trim them.

Colors: White, sand, navy, black, corn, Copenhagen and two-toned effects such as brown and corn, sand and Copenhagen, navy and corn, etc. Millinery that evidences superior style and workmanship. Prices from \$4.95

-Children's Shop, Second Floor to \$14.95.

Children's Spring Voile Frocks

Display many new style features

In accordance with Fashion's edict that waist lines should be indicated by tucks or embroidery or some novelty trimming touch, or outlined by narrowest belts—so these dainty voile frocks with their exquisite lace trimmings have dainty girdle effects of narrow grosgrain or satin riboon in pink and blue.

Other new style touches are the tunic effects, short sleeves, deep, lacetrimmed berthas and panels, also colored stitching and tiny frill trimmings. Priced from \$8.50 to \$18.50.

-Children's Shop, Second Floor.

# Spring Footwear

Fashionable One-Eyelet Sailor Ties

Distinctive in style and of unusual charm. Their superior workmanship makes them fit the foot in a shapely manner as well as imparting the latest style lines.

Five styles offer you selection: brown kid, black dull kid, patent colt, white kid and black satin. With covered French heels, hand-turned soles. Their smart ribbon ties and snugly fitting tongue make these low shoes hug the foot and prevent unsightly gaping. Fashion's latest footwear-\$12.50

Baby pillows Dressing sacques Infants' dresses Baby bibs Etc., etc.

Stamped on fine quality fabrics and complete with cotton for embroidering. Needlewomen will delight in these beautiful new spring things. . Art Needlework Department, Third Floor.

# Sport and Dress Blouses

Daintily expressive of the new season and exquisitely charming in their beauty and style. Developed of georgette in new shades that include league gold, peach bloom, Bermuda, siame and navy. Adriatic, blue dawn, orchid and black, beige and turquoise. Beautiful creations in white and flesh, sichly enhanced by heads and embroidery, real filet and cluny laces. Both long and short sleeves and latest collar effects. Prices-\$14.95 to \$35.00.

CREPE DE CHINE BLOUSES-Of heavy quality in white and flesh. All newly arrived for the first spring showing. Dress and tailored styles. \$8.95 to \$14.95.

IMPORTED VOILE BLOUSES-Exquisite creations for 1920 that are hand made. Handsome drawn work, tucks and laces make of them symphonies of beauty and style-\$8.95 to \$12.50.

# Newest Sport Coats Here

Most striking effects in polo cloth, camel's cloth, silvertone, peachbloom and velours.

Ultra new cape coats of angora in sport colors. Lengths range from 36 to 40 inches in length; also some long coats here. Prices — \$29.50 to \$175. Sell Section, 2nd Floor

# Smart Separate Skirts

Distinctive fabrics and exclusive fashion versions styled to appeal to the woman

The jackets vary in their length and show tucks, pleatings, braid trimming,

with distinctive dress ideas. The fabrics include rich novelty weaves, plain trico-

tines, Poiret twills, serge, gabardine, tweeds and wool jersey.

buttons and embroidery. Prices-\$55 to \$150.

For sports and other occasions where separate skirts may properly be worn, there is nothing to exceed the charm of these sprightly looking skirts of the fantastically woven fantasi, the ever-changing kumsi-kumsa, shimmering luxette, murette satin, striped georgette, crepe de chine, Victoria cloth, faille and taffeta, wool velours, serges and flannel. Some are pleated, others are straight line and tunic effects.

Colors are white, rose, sea green, langerine, orange, gold, Copenhagen, tan, turquoise, cotillion, taupe and novelty plaids. Prices are \$19.75. to \$55.00.

# Spring Millinery

For Southern Resort and Advance Wear

An advance exhibition of the New for 1920. Exquisite models varying from the graceful broad-brimmed creation to the smart, snugly-fitting sport hat that delies Spring breezes and "will stay on tight." Newest styles and materials featuring hats of

Shaded hair cloth Embroidered satin Changeable silks Hindu cloth

Ravelled straw Batavia cloth Celophane braid Raffia braid

and flowered taffetas

Distinctive resort hats-a charming assemblage of Fashion's foremost creations. The colorings are beautiful beyond description: Egyptian colorings in pink, blues, sand, Nile green, old rose, orchid and blended shades. Also black, brown and navy. Prices-

HAT AND BAG SETS, consisting of hat, bag and cape in faille silk, sport effects.

# Spring 1920 Silks

# For Resort and Advance Sports Wear

A peep through the portals of Spring reveal fascinating glimpses of the

Exquisite Sport Silks-radiant, shimmering fabrics in colorings that outrival Spring blossoms themselves.

The new Spring Silks have just been received from the looms of Mallison, Migel, Pelgram and Meyer, Cheneys' and other foremost designers. The new weaves include:

### 1920 Fan-Ta-Si

A silk entirely new in construc-tion—weave—color. Light in tex-ture and of gossamer-like softness and richness. An exquisite silk for sports salts, sports wraps, sports skirts, parasols; bags, frocks, beach costumes, sports blouses, sports hats. In plain colors, barred and figured,

## Dew-Kist

Radiant, shimmering two-tone silks or rich texture and distinctive colorings. Very versatile silks, as they have been chosen by Fashion for sports' apparel, hats, bags, blouses, sweaters, afternoon cos-

Two satin weaves of firm, even weave and rich, lustrous finish that seems to fairly catch and reflect the light in its glimmering folds,

And many other Spring weaves. Come and see them. Superior quality silks. Yard, \$6.95 to \$10.50.

# Neckwear

### for 1920

Advance arrivals for Southern and early Spring wear show a wide diversity of styles in women's neckwear. The style tendency is away from the strictly tailored and toward the profuse use of frills. Most charming is the wide variety of necklines that may be chosen as being correctly fash-

## Eyelet Embroidery Neckwear

### in the new bisque shade

Disque is one of the predominating shades for Spring, and it is altogether irresistible when it affects in vesters and gaimpes of eyelet embroidery. They are in square-neck styles or with the fetching round collar—finished with inch ideatings and crechet buttons. \$4.95 and \$6.95.

### Novelty Camisole Vestee

To be worn with suits or frocks—the vestee is attached to a silk eamisole. Easily slipped on and being altogether prevents slipping or gaping. In flesh and white satin of rich, heavy texture, with lacey, ruffled vestees; some finished with black ribbon bow. \$6.95 to \$10.50.

THE RESERVE OF THE PROPERTY OF

# Styles on Living Models

will be shown, Monday; Tuesday and Wednesday between the hours of 2 to 4 p. m.

The promenade willstart from the Apparel Section on the Second Floor and will include the Silk and other First Floor Sections.

# Cotton Fabrics and Spring

# Make Their First Bows Together

Just as the first flowers of Spring peep up here and there in the gardens, so the first fabrics of Spring appear on the shelves of the Wash Fabrics Shop.

Only a peep into the Fashion Realms, but what fascinations revealed. Snowy white suitings call up visions of sunny resorts and golf links. And there are fabrics wonderful in design and distinctive in color-

ings, varying from the serviceable to sheer gossamer-like weaves for party wear.

### Spring 1920 Voiles

Beautiful designs-it would almost seem that the Spring flowers themselves had been caught and woven into the texture. Exquisite colorings-new 1920 prints. Yard-\$1.50, \$2 and \$2.50.

PROMENADE SUITINGS-Snowy, white, firm, even weave. Just the thing for resort and Spring wear. 36 inches wide. A fabric much in demand for dresses, beach skirts and children's wear. Yard-75c.

### Silk-and-Cotton Georgettes

Beautiful wash fabrics with lustrous silk weave combined with sturdy cotton for better wear. Sheer and dainty as all-silk but at half the price. Light and tinted grounds covered with the newest floral and conventional patterns. 36 inches wide. Yard-\$1.50.

See Housewares advertisement on page 11-4 and White Sales advertisement on page II-A.

CHIROPRACTIC.

CHIROPRACTIC.

NO. 148.

# The Better Way

TONSILITIS. If you are suffering from an attack of Tonsilitis the most logical thing for you to do in to cell upon your Chiropractor and have him adjust the cause of the trouble. No physician knows the function of the tonsils, therefore he should not be permitted to remove them. Is it not much better to keep these much abused littleorgans healthy than to deprive your body of something that an ALL WISE CREATOR knew was essential to your needs?

A Chicopractor can not make HEALING FORCE, but he can AD-JUST SUBLUXATED VERTERRAE (small bones of the Spine), and

let it in these diseased tonsils.
CONSULTATION AND SPINAL ANALYSIS FREE.

DR. W. E. STILES

Oakland's Only Licensed Resident Graduate of the Palmer School, the Chiropractic Fountain Head, 212 Syndicate Bldg., 1449 Eroadway, Oakland, Calif. Phones Oak, 178; Oak, 1742

### CHIROPRACTIC FOR LUMBAGO

Lumbago is a muscular theumatism in the small of the back. The primary cause of fumbago is a subluxation of one or more of the spinal segments producing perve pressure. If you are a lumbage sufferer or have rheumatism in any form, call at my office at the carliest possible moment. CHIROPRACTIC ADJUSTMENTS free impinged nerves, allowing NATURE to assert herself, which consists in eliminating bodily polsons and building up resistance and putting

the body in the best condition possible. C. C. Thatcher, D. C., Ph. C. CHIROPRACTOR

State Railroad Commission Estimates Demands That Will Be Made for Hydro-Electric Energy in Year

\$5,000.000 Required for the Power Stations and Transmission Lines and An Equal Amount for Other Facilities

The normal growth of Northern and Central California will require the addition of power generating facilities to the extent of 30,000 kilowaits per annum, according to estimates by Railroad Commission engineers. This will mean the expenditure of approximately \$5.000,-000 a year for power stations and transmission facilities alone. An equalty large expenditure will be required for distribution and other facilities necessary to deliver this power. It is estimated, that the power demands for Southern California-industrial, commercial, residential and for irrigation-will Teach a total equal to approximately that necessary for the needs of the northern and central sections. California's electrical needs, thereforedemands-will call for the expenditure for several years to come of approximately \$20,000,000 annually. At prese. there are under way four large hydro-electric projects, the completion of which will require the

half a million customers, 545.000 to be exact, on the books of the existing electric utilities of the state. the commission points out in its annual report, just completed and forward ed to Governor W. D. Stephens, but few people realize the importance of hydro-electric development and the part it plays in the growth of California. Much of the state's development hinges upon power, cheap power. The orchardist needs it, the farmer needs it, the irrigationist needs it and it is needed in every home. The factories and industries already here need it and it must be here in plenty if the state is to induce others to come. Cheap power means power hydro-electrically pro-MANY PLANTS

At present the eighty-four companies engaged in the business of manufacturing and selling electric energy in California operate seventy-five hydro-electric plants. In addition there are fifty steam plants. The combined installation of the one bundred and twenty-five plants total 770,000 kilowatts. During the year 1918 those plants generated a total of 2,892,000,000 kilowatt hours. production, were preduced by water power. This production is still far below the energy required to meet the present demands.

The proceeds from the sale are to be applied on the purchase price of two parcels of land in Fresno county.

Burdiets of which 2,163,000,000 kilowatt hours, or 75 per cent of the entire production, were produced by water

to points of distribution, 7000 miles aburting and accounting. The shares are in use. From distributing points \$4,000 miles of wire carry the energy directly to the factories the homes and the farms and the orchards of

and cities of the state, in a year, pictures paid the utilities \$1,750 000 for the Solano electricity used in street lighting.
The receipts for residence and commercial lighting totaled \$12,793,600. mercial lighting totaled \$12.793.000, present sedemonder at last 197 and 198 a list of operating expenses shows that the companies paid \$2,500,000 for taxes; their commercial expenses for certain real and personal property of many such ander with in A 000. Real Estate Experts Asked for Services in Making Appraisal of Property Valuation, Without Any Compensation

Oakland Real Estate Board Decides That This Service Has Value and They Will Demand Property Payment

One should not expect to obtain a realtor's appraisal of a riece of proberty without paying for it, any more than he would expect to secure a suit of clothes or a sack of flour from his merchant. Knowledge of realty values is an important part of a realtor's stock in trade and he is quite as certainly entitled to be paid

This was the sentiment expressed vithe Oakland Heal Estate Board at their luncheon meeting at Hotel Oakland on Wednesday and which resulted in the unanimous adoption of a resolution pledging all members of the organization to refuse, here-after, to answer inquiries as to prop-erty values unless the person seeking

erty values unless the person seeking the information pays the established schedule fee therefor.

"An offhand opinion given gratis is worth just what it costs, nothing." said F. Bruce Maiden, president of the board, in opening the discussion.

"If a realtor gives theroughly reliable information on the value of properties." (It is it is because he has gotten that

# What Constitutes a Good Tenant?

From National Real Estate Journal To describe the genuine desirable tenant may be more of a task than one thinks, yet the description can be brought description can be brought down to a very few words, embraced in the following characteristics: He pays promptly never complains without good reason, takes proper care of your property, tells the truth, behaves like a gentleman and attacks to his own business. attends to his own business. When you have, such a tenant make it a point to keep him.

The State Railroad Commission has laid down the principle that the plea of financial difficulties does not pany, according to information filed suffice to save a railroad corporation

where the Nevada County Narrow An instance of the kind desired Gauge railroad, which is largely

The Nevada County Narrow Gauge Railway Company will have to pay half the cost of the con-struction of overhead crossing over the tracks and portal of the tunnel of the road at Town Talk Summit. Nevada county. The Summit, Nevada county. The Railroad Commission made an order to this effect today. The balance of construction cost will be mission. The existing grade crossing on the present county road between Nevada City and Grass Valley, situated about 400 feet from the proposed bridge, is to be abandoned by the supervisors of Nevada county, the board hav-ing made this promise in its efforts to secure the over-head bridge.
The railroad opposition to the

over-head bridge was based on the ground that it could not afford he expenditure. The commission held that as the plea of financial difficulties does not save an ordi-nary citizen from paying street or other assessments that may be levied against his property, the railroad should not be excused from its share of public improve-ments. The commission also points railroad paid an average of \$10,-635.50 a year in dividends, and says that if a more conservative dividend policy had been followed the deficit claim for 1918 would

National Ice and Cold Storage Company Buys the Roeth Property on Lower Market Street; Will Build at Once

Will Be the Largest Plant of Its Kind in the State of California; Will Be in Operation in Time for New Crops

The largest and most modern cold storage warehouse in California, having a capacity of 590,000 cubic feet and capaable of accommodating 3500 tons of food products at one time, is with the Oakland Real Estate Board yesterday by the officers of this cor-poration through J. Carl Sculberger Oakland Real from making improvements required poration through J. Catt Section. Its M. Wood, by the public safety and convenion to be introduced ence. This was held in a case realtors, who handled the purchase of the site for this new enterprise. The property involved is that merly owned by George Roeth in the block bounded by Market, Myrtle, First and Third streets and comprisfing approximately 45,000 square feet of ground space, fronting 184 feet on First street at the northwest corner of Market street. The front-age on First street gives ample facili-

igh on this street gives ample facilities for trackage adjoining the class A fireproof building which is to be installed with the most modern apparatus for the prompt and economic handling of goods, and considerable space is provided adjoining the storage warehouse for the accommoda-tion of allied concerns requiring refrigeration service, for the location f which Seulberger is now negotiating.

"The remarkable increase in canning industries and in the handling of frints and vegetables by produce houses has developed, in this community, a very extensive need for re-frigeration warehouse service," said Seulberger. "The location of the National Ice & Cold Storage Com-pany's new plant at this point gives them transportational advantages which will put them in close touch

will be broken immediately and actual construction begun just as quickly as the plans for the plant, which are now being prepared, are completed."

This corporation has been in the ated the first establishment of that kind in the state. It now has in operation and under its own management, twenty-three ice and cold storage plants in California.

with the canneries and with the pro-duce, and commission houses in the

wholesale district and with the rail-way depots. The officers of the cor-

poration have announced that ground

# Home Building Being Rushed

Lakeshore Highlands building program smashes all records

Starting a new home in Lakeshore Highlands every five days calls for the work of hundreds of men-architects, contractors, surveyors, cement-workers plumbers, electricians, lathers, plasterers, carpenters, mill-workers, teamsters and representatives of other crafts.

The Walter H. Leimert Co. is devoting its entire energy toward alleviating the "home famine" which exists in the bay cities by building popularpriced homes for sale on terms.

Scores of workers are rushing the construction on a series of eleven modern, popular-priced homes, the first unit in the 1920 building program; many more are laying out the foundation-lines for suc-

the finishing touches on the development of the close-in portion of the tract, surfacing the wide concrete streets, installing sewers, gas and electric conduits, sidewalks, water mains and parked

This means that you can move into a beautiful new home within sixty days if you make your reservation ceeding units; hundreds are employed in putting

### Only Permanently Restricted Residence Tract

Lakeshore Highlands is the only residential tract in the east-bay district combining the highest development as a home park with ideal location and PERMANENT RESTRICTIONS.

It is located close in to Oakland, being ten minutes by direct car service to the Oakland City Hall and thirty-five minutes to the Ferry Building, San Francisco, by Key Route train service from the property.

Situated within a short walk of Lake Merritt and backed by the beautiful Piedmont Hills, its

scenic location is perfect. Combining every modern idea of residence park development, it is more highly improved than any section of the city. It is permanently restricted throughout as a home-

Property is moderately priced, ranging upwards from \$975 for a 50-foot lot. The houses that are being built on it offer a wonderful opportunity for home-buyers who would rid themselves of the details of construction while retaining the privilege of exercising their individual taste in interior decoration and design.

Visit Lakeshore Highlands Sunday--See what is being done

From San Francisco take the Lakeshore train at the Key Route mole. From Oakland take the Lakeshore Avenue carling or drive out Lakeshore Avenue to the main entrance to Lakeshore Highlands at Lakeshore Avenue and Mandana Boulevard. Automobiles are at your service if you telephone the office.

OAKLAND, CALIFORNIA, SUNDAY MORNING, JANUARY 11, 1920.

B-PAGES 1 TO 8

LAMBERTVILLE, N. J., Jan. 10. -Dr. John L. Brand, or "Dr. X.", as he calls himself, the 64-year-old victim of asphasia, will be taken to his home in Worcester, Mass., where it is hoped the sight of his wife and daughter will awaken his deadened Until he recovers sufficiently from

the mental strain he will remain with the Rev. T. J. Bensley at the rectory of St. Andrew's Episcopal church here.

The identity of the doctor, who

has been missing for three years, was established today by his son, Lieutenant Commander Charles L. Brand, a naval constructor stationed at the Philadelphia navy yard.

The identification was made under the most drastic circumstances. The young naval officer entered the rectory while his father was talking with newspaper men and was making preparations to have his photograph taken.

SON NOT RECOGNIZED. "Father, don't you know me?"

asked the son.

The doctor looked at him for a moment and then replied. I do not recall you, sir."

Tears dimmed the eyes of the son

as he looked closely at the old man and said huskily: 'I am your son, Charles, father; think-don't you know me now?"

The father looked thoughtful and then said: "I am very sorry, sir, but I do not seem to place you" Commander Brand then request-l a private interview with Dr. Lewis C. Williams, who has had the man under observation, and his

Dr. Williams later announced there could be no mistake in the identification, even though the father did not recognize his son.

"Commander Brand, before seeing his father, gave me a number of identification marks on his body and described his appearance accurate-ly," Dr. Williams said.

REMAINS IN RECTORY. On the advice of Dr. Willams, the aged physician was allowed to remain in the rectory until he recovers from the mental strain caused by much questioning and his efforts to recall his identity. Later he will taken to his home. Commander Brand said his father

had disappeared from Worcester three years ago and nothing had been heard from him since. He was prominent physician, an accomplished musician and possessed of station on December 22. He was A reception in honor of the bridea handsome new home in the Park- this city.

wouldn't go ahead antil I did." Hewit in the complaint he prepared for
her declared Mrs. Killeen was without funds.

Woodson murdered Spencer in a
quarrel over a gambling debt. The "Mr. Clerk," said Judge Robinson, crime is characterized by the police "swear Mr. Hewitt."

Hewitt took the stand and repeated. Woodson shot Spencer through the statement about giving Mrs. the abdomen and then leaped into an automobile and made good his escape. All efforts on the part of

RETURNS TO OAKLAND

The entire country has been covered with circulars telling of the crime and describing Woodson. Police authorities state that the alleged criminal will be brought back to Oakland for trial at once. It will be the endeavor of the prosecution at Judge Robinson of Hewitt. the trial to try to establish the fact Trour honor, he is not: shouted that robbery was the motive for the firs. Killeen.

The judge asked Dr. Killeen about murder. It was found after the murder that Specialish the fact The judge asked Dr. Killeen about the possibility of a reconcilation, to effect which the case was continued several weeks ago, when Hewitt declared he would not be a party to such a thing, saying. "I am here to try this divorce case."

Killeen replied that there had been no need of a divorce, as he had not been untrue to his wife, but that

Mrs. Kalleen was given an interloc- He had been there for some time and Mrs. Killeen was given an interrection was taken into custody after sevutory decree, alimony to be arranged eral weeks of surveillance on the part of the Philadelphia police.

Oakland police officials regard the capture of the murderer as one of the most notable exploits in the de-tection of criminals in the annals of the local police.

Two women were shot last night in a rooming house at 1552 Fifth street by a roomer whose name, the victims said, was Jesse Butler. Both were hit in the left leg and were treated at the emergency hospital. All concerned were colored. injuries are not serious.

"Don't argue any more with him. Wait until your husband comes home," Mrs. Parthenia Coleman, aged 41, native of Alabama, told her daughter, Mrs Lavornia Williams, aged 23, a native of Texas, accordng to their stories.

Mrs. Williams obediently told But-

er to go away. "If you don't you'll get into trou-

ble," she is said to have remarked.
"I'm looking for trouble," Butler is alleged to have replied.

The women said he then drew a revolver and fired twice. The po-lice, furnished with a complete de-

scription, are hunting Butler.

### Exclusionists to Ask Special Legislature

SAN FRANCISCO, Jan. 10. - A special session of the state legislature for the purpose of enacting legislation to curb alleged "Japanese aggression" in California will be placed squarely before Governor Stephens, if the plan of State Senator J. M. Inman, to be placed before directors of the Oriental Exclusion League, is adopted here Monday. The directors have called a spe-

cial meeting to hear Senator Inman's recommendations in this regard, to be held at the Palace Hotel Monday morning next.
Should the governor fail to heed

the committee's request. Inman says, the initiative will be invoked.

CARRIE LOUISE WATSON SCHOOL.
The Carrie Louise Watson school is located in Oakland just at the head of the lake, 87 Vernon street.
Only-college graduates are employed as teachers in the high school courses. A special feature of the school is the thoroughness of work and the time saved for the pupils, especially in the high school classes. The school is well established and among its graduates are included those who have won the highest honors at the universities.

TANDARD SECRETARIAL SCHOOL One of the largest and finest school plants devoted to secretarial and commercial training in the Eastbay is that of the Standard Secretarial school, combined with the Rerkeley Business College at 2168 Shattuck avenue. # Our Dreams Come True

1920-The Banner Tear in the History of Polytechnic College

Ten years ago the managers of the Polytechnic College dreamed of erecting their own College Building for special courses in business and technical training. The above illustration of that building was the result of their dreams in part only. The present year 1920 sees the realization of those dreams complete, for the large, enrollment of new students now coming in will fill the college to its full capacity within the next thirty days -nearly five hundred students will be in daily attendance.

Educational Policy-Intensified, Thorough and Practical Courses.

No time wasted in non-essential subjects. No educational experiments or overload of "fads." Only by specialization do we become experts-and experts only are demanded in responsible positions.

The Polytechnic College is one of the best equipped schools in the United States. It has thousands of graduates occupying the best paid positions. Its Faculty is composed of the ablest instructors—experts in their special lines.

### Tuition Within Reach of All

This college maintains the lowest rates of tuition of any similar school in the west. Owning and occupying their own buildings enables the managers to keep down the cost to

Enroll Now Special classes will be organized during the next two weeks for the benefit of those who could not enroll the first week in January we can accommodate about fifty more students after January 20th.

Courses Offered: All Business Training, Shorthand and Private Secretaries. Also Civil. Electrical, Mechanical and Mining Engineering, Machine Shop and Automobile Engineering.

BERKELEY. Jan. 10 .- One hundred per cent increase since 1910 is the goal which the city of Berkeing taken by government agents. According to reports reaching the office of the Berkeley Chamber of Commerce, the local census head-quarters, the work of the census takers is progressing favorably in all parts of the city. That Berkeley wants no more than a fair count is the declaration of Wells Drury, sec-retary of the Chamber of Commerce, who is lending aid to the government aneumerators. In this regard Drury says:

It looks as if the work is being well done, and if matters continue in the way they have started out our people will have no ground for complaint. All we wish is a fair count. and if that, is obtained there can be no just ground for dissatisfac-tion, even if the total should happen to fall below the figure at which we have placed the estimate.
"Citizens who have devoted study

to the subject believe that Berkeley has about \$9,000 inhabitants. It will be recalled that in 1910 the official census showed Berkeley's population to be 40,424."
Several complaints were received

at the Chamber of Commerce this week concerning alleged erroneous listing of Berkeley people by enum-erators who were employed to get the names of residents of Oakland. In less than an hour after these complaints were reported to Chas. L. Donohoe, census supervisor for Alameda count, he had an inspector on the ground to investigate the entire affair, and states that he finds that the Oakland enumerators

# Your Bed Pillows---Would you like to have them washed?

Bed pillows are seldem washed in many households -the same pillows are used through summer and winter, illness and health.

This often happens in the dwellings, too, of housewives who are justly proud of their home sanitation. Sweet, clean slips are used, but pillows nevertheless are frequently overlooked.

Why not send your pillows to us for a thorough cleansing? We bubble them up and down in pure soft water and fluffy suds. We rinse them time and again. Then we dry them quickly in fresh, warm air, and tumble them until they become delightfully downy once more.

It gives new life to the feathers, whether they be snowy breast feathers, or the less fluffy tail feathers. The pillow, too, is sterilized. Slumber becomes a

Why Ice is Needed to "Keep" Food Even in Cold Weather By DR. LEONARD K. HIRSHBERG, A. B., M. A., M. D.

(Jonhs Hopkins University) When the panes are hung with incriptions and wizard work of silver lace by Jack Frost, houses heated by hot air, hot water or steam need a refrigerator full of ice as much as hey do in mid-summer.

The more icy cold your edibles and drink are kept, the safer they are as far as health and disestion are con-As coldly and capriciously as the

slanting sunbeams fall in the frozen months of the year, they cannot prevent germs and microbes from generating in close, stuffy pantries, kitchens, storerooms and dining

When the frost has wrought its vorst outdoors, food may be decaying, decomposing and fermenting in

While winter gives the fields and the trees beards of icicles and snow and every fern is tucked downy, soft and warm beneath a coverlet of snow uniced perishable food may spoil in the ficat of the winter in-

Obviously, ice is needed in the vinter almost as much as in the torrid days of August. By it only can the cook and housewife prevent milk and other food from spoiling.

Physicians and hospitals will verify the fact that there are about as many victims of food polsoning in the cold weather as in summer. This means that housekeepers impose on winter weather too much. They expect the outdoor cold to prevent food on the inside from going bad.

Cold storage, ice boxes, coolers and refrigerators are needed throughout the winter. It is more economical and healthy to maintain a liberal supply of ice than to be without it. Time was when there was an ice-

house attached to the home. But no more. Steam-heated homes and apartments are far removed from Milk gone a little sour in a window

box may mean colic for baby, certainly discomfort—perhaps "summet complaint" in winter. If the milk is thrown away, the loss on a single bottle would have paid for ice to keep it and all your food sweet and clean all day, while if baby is made ill, the cost of drugs and doctor vould buy your winter's ice. The price of a pound of butter tainted, made "strong" and thrown out would pay for ice enough to save all your food all week. A few spoiled oranges and lemons or a grapefruit or two cost more than a week's ice-Fire escapes piled with food and windows impeded with boxes containining perishable food retard the escape of women and children from burning buildings. Window ledges often afford the last available stand-

and dishes of food are liable to be blown off the window ledge and injure those on the street below. The window box is not a emistar-

tory substitute for a tefrigerater. should not be frozen. If thust he kept at an oven temperature close to 40 deg. F. On a window ledge or fire escape food is often exposed to below freezing temperatures from late afternoon until well into the next morning during the winter, and Fitchburg Club meets, 7227 East some days it is frozen all day. Only in a well-iced refrigerator can food be kept always at 40 deg. F., its

There are few winter days when the temperature does not go above Porter Lodge meets, Porter hall, 50 deg. F., in the sunshine at least, from 10 a. m. to 4 p. m. Then, if placed outdoors, the butter gets soft, milk sours, fruit, meat and vegetables spoil and the cheese gets oily. At night they freeze again. Alternate freezing and thawing invite decay and ruin the flavor of all foods. Ice keeps food just right all the time if it is kept in a nodern, hygienic re-It is reported from Canada that

CAL EWING, MASQUERADING AS THE DOVE OF PEACE, BROUGHT ABOUT HARMONY IN THE P. C. L.

## LEAGUE LEADERS TO ENTERTAIN NATIVES AT EMERYVILLE LOT

Halton-Didiers, Runners-Up, Have Engagement With Union Construction Co.

By EDDIE MURPHY.

You cannot prove it by Walter (Dutch) Holstrum, manager of the Oakland Native Sons' baseball team, that the Judson Iron Works team has einched the pennant for the Class A division of The Oakland TRIBUNE Midwinter league. Walter refuses to make such an admission until the game between his Natives and the Judson will be played this afternoon at the Judson ball park in Emeryville. But everybody but the Oakland Natives and the Halton-Didiers of Alameda admit the Judson have the flag cinched. This means the fans will see some good games this afternoon, even though the race is practically over.

Battle for Top Rung

Golden Gate Gunners

All games start at 2 o'clock

The Halton-Didiers are keeping up their fight and will show it my meet ing the Union Constructors at Lincoln park this afternoon. And while those contests are in progress, the Crystal Laundry and C. L. Best Tracters will be battling at San Leandre to see who really owns the third rung of the class A ladder. At Fruitvale Recreation park, the Hall-Scot Motors and J. J. Kreigs will be fighting for a like purpose, but it happens to be the fifth rung they are trying

Interest Will Be Keen When Series is Played

When Series is Played

After the playing of today's games, the big talk among the local bush fans for the next couple of weeks, will probably be on the chances the champions of the TRIBUNE league would have with the winners of the Sacramento Midwinter league. A couple of local baseball men are to visit Sacramento today and will have a talk with the leaders of the Sacramento league in regard to their champions playing a game or maybe a series with the TRIBUNE league champions. If a game is arranged between the champions, it is a cinch that many local fans will make the trip to Sacramento to see it. Already there is talk of an excursion being held should the series be arranged.

being held should the series be arizaranged.

Just: before the opening of the TRIBUNE league a suggestion was made to Charley Graham, one of those interested in the Seals' league, that the winner of the transbay league, meet the winners of the local league. Graham refused such but agreed to have the Seals' league champions meet an all star team picked from the IRIBUNE league. Players on the TRIBUNE league. Players on the Judson team, should it win the pennant, will have to be chosen. A wonderful all-star team of youngsters could be picked from the local elegate. The meeting to make final airrangements for the series will be a conservators. I which was a conservators.

arrangements for the series will be held next Tuesday night in connection with the regular meeting of class A managers. Charley Graham, manager of the Seals, and probably a couple of others interested in the league will not close its season for a few more weeks, but in the meantime the Sacramento series can be played, and maybe another between the winners of the class A and B Melrose Merchants 3 division of the TRIBUNE league.

"Red" McClain to Get Chance Against Judsons

the pride of the cherry town fans. will work against the Tractors. "Red" McClain, the tail heaver of will work against the Tractors, the Oakiand Natives, has the same Constructors Must Win or grand chance that Herb Mcuaide, the the Oakiand Natives. has the same grand chance that Herb Mcuaide, the young J. J. Kreig pitcher, had last Sunday—to stop the march of the Judson Iron orks. It is a tough job for any pitcher to tackle, as the Judsons have proven themselves the best team in the league by defeating all ors. last Sunday. Indrew (Red) the contenders, and also the pitcher that faces the Judsons must be in almost unhittable form, and hardly allow a run, as Bill Steen has been letting few teams score any runs against the Judsons. However, Mc-Iclain and eight other husky Oakiand Natives are to be out at Emeryville and try to put across a win. It certainly is a hard job for a team to look at the record of the Judsons and then to think that they are going to try and beat them. The Natives are way down in the second division, but Manager Holstrum places much confidence in them, especially with Paul Codington and Tammie Smith returning to the lineup to help in strengthening.

Constructors Must Win or Red Powers Goes Broke

With determination to get out of the class A cellar, which he took possession of with his Urion Constructors. Look possession of with his Urion Constructors will be class A cellar, which he took possession of with his Urion Constructors will be class A cellar, which he took possession of with his Urion Constructors will be class A cellar, which he took possession of with his Urion Constructors will be class A cellar, which he took possession of with his Urion Constructors will be class A cellar, which he took possession of with his Urion Constructors will be class A cellar, which he took possession of with his Urion Constructors will be class A cellar, which he took possession of with his Urion Constructors had been leaded his piayers onto the field at Lincoln park this clush powers has wagered that his club will not finish in the basement, so it is now up to his boys to save the red tops money. The Halton-Didiers are slightly in the fight with the Judsons for the pennant, so Mr. Powers are will not finish in the last wil

Against Crystal Laundry

Against Crystal Laundry

Artie Schimpff, the daddy of the bushers, will make his reappearance as general of the C. L. Best Tractors on the field, when that team will meet that become and J. I. Kriegs the Crystal Laundry at San Leandro. The chances are that Schimpff will give the Tractors a thorough shakeup for todar's combat, as Artie was one sion of the second division of the switches in the lineup last Sunday est they have a chance to get, both might have prevented the Halton-clubs will be trying to shove the Didlers handing out the terrible beat-ing—the wore the Tractors have reserved since organized. Schimpff is succeeding Johnny Clother as leader tackie the main part of the lob of the team on the field. Clother trying to make the Hall-Scotts go found that the field. They say the management of the hotel where the meeting was held had a terrible time getting all the brimstone out of the room and putting the acoustics in working or-der again.

And prohibition was the cause of it all. In the days B. P. the boys would have called for another set of quarts and there would have been a peace pigeon in every one of

Bill Larue is a good fellow and we hate to read about him being knocked out all the time, but the hardest part of it is breaking the news to Mrs. Larue.

Mrs. Bill called up bright and early yesterday morning to find out how hubby fared against Carl Morris at Fresno, and we had to tell

Wish she would call up somebody else until Bill finally wins a battle and we can give her some giad news.

Every time Willie Mechan hears about Bill Larne losing a fight he asks eight of his managers to kick him around the block.

At that, Larue can claim the championship of the world. He licked Willie Meehan and Meehan licked Dempsey. Bill's other fights don't count.

Cal Ewing is getting very quiet and sedate in his old age. Cal used

to start something instead of acting as peace-maker. All Jimmy Coffroth has to do to get the big fight for his racetrack is sign Jack Frempsey and Georges

But even if James fails in this laudable effort he will still be ahead of the game to the amount of about a million dollars' worth of publicity.

The fight, you know, is practically cinched for Tijanna, except that neither Carpentier nor his manager know anything about it.

#### Speed Martin Signs Chicago Contract

igned his 1920 contract with the Set for Today play, Speed met President Bill Veeck, of the Cubs, while the latter was here last week, and came to terms. He got a nice little raise and is well

#### Basketball Teams Enter Many Players

# Chance for a Tie in Class

BOY! PAGE" KID "PARKER.

Orpheums and Millers Hook Up Today at Bay View Diamond.

Only two more games remain to be played by each team in the Class B division of The Cakland TRIBUNE League, but the winner of the flag in that division cannot be determined before next Sunday, and then it is possible the winner will still be in doubt. With four teams still having a chance at the flag, there is a good chance of a tie. The Peacock Autos who have been playing wonderfui ball all season, principally because Gene Kersten is their pitcher, are now leading the "B" race by a full game over the California Cotton Mills. Twenty-third Avenue Merchants and Orpheum Cigar Stores, who are all tied for second place.

PEACOCKS PLAY ALLENDALE.

PEACOCKS PLAY ALLENDALE.

The Peacocks cannot increase their lead today, even if they win their game from the Allendale Merchants at Allendale, as the Orpheum Clgar Store and California Cotton teams are to meet at Bay View playground at Sixteenth and Wood streets, and the winner of that game will be the same distance behind the Peacocks as they are this morning. A whole lot depends upon the Allendale Merchants and Meirose Merchants to keep the fight of the three clubs right on the heels of the Peacocks from being a hopeless one. The Allendale Merchants can be depended upon to try their best to stop the Peacocks this PEACOCKS PLAY ALLENDALE. chants can be depended upon to try their best to stop the Peacocks this afternoon at the Allendale playground, but there is a chance that the Melrose Merchants will not have a full team out on the field when they meet the Peacocks in a postponed game next Sunday. The brightest hope for the team trying to beat out the Peacocks appears to be for the Allendale outful to heat the Anto boys

the Peacocks appears to be for the Allendale outfit to beat the Auto boys this afternoon. Bobby Foster, one of the new sensations as a pitcher in the bushes, will probably be in the box for the Allendale team when they meet the Peacocks. Gene Kersten, the tail heaver who has practically done more work than any of the other members of the Peacocks to make them the leaders, will be on the hill for his club, and will have Ed. Borba, a new find of promising catcher, to act as his hattery mate.

HERE IS THE BIG GAME.

The game at Bay View between the

HERE IS THE MIG GAME.
The game at Day View between the
Orpheums and California Cotton
Millers ought to be the big contest
of all scheduled today, as it will be a signed his 1920 contract with the of all scheduled today, as it will be a fight of teams not wanting to Lieling his mysterious 'mystic curve' on display. Speed met President Bill Veck, of the Cubs, while the latter was here last week, and came to terms. Millers have Emil LaCloustra and Goodwin.

The Twenty-third Avenue Merchants ought to walk home with a win over the Elimburst Merchants who they meet at the Elmburst diamend, but you never van tell about these lowly positioned clubs. Take the case of last Sunday for instance, when the Redmen best the Avenue.

# THE DAY

Clubs Guaranteed Average Attendance in Closing Weeks.

While President Billy McCarthy and Billy Lane, of Salt Lake, are being given credit for restoring peace in the ranks of the Coast League magnates it was Cal Ewsing's diplomacy that prevented a

Ewing was absent from the meeting room when the schedule battle broke out and he knew nothing about it until late in the evening. Then he approached McCredie and Klepper, who bolted the meeting and told them he had a scheme he was certain would prove satisfactory. They trusted in Ewing and returned to the meeting.

CAL AS PEACEMAKER. The rumpus was caused over the refusal of Seattle and Portland to accept the closing dates of the season as the northern magnates know that they are taking a big chance on the weather in October.
When the delegates assembled again Ewing made his proposition and that was that the league guarantee average attendances at all parks in the closing weeks. Cal's little playmates saw the logic of this plan at once and it was adopted and with its adoption the last bone of contention had been disposed of

of.

Jack Cook, representing Salt
Lake agreed to close at home under
this arrangement when he would
have refused without getting an
attendance guarantee.

PROTECTS ALL CLUBS. Under the new arrangement both the home and visiting clubs will be protected. If the attendance is better than the average the clubs will pocket the money but if the crowds are small or it rains or snows and the clubs cannot play then the league, as a body, will guarantee a sum equal to the average receipts during the season.

The solution was simple but no-body thought of it but the Oakland man.

## Jimmy Darcy in **Shape for Bout** With Bat Ortega

Battling Oriega and Jimmy Darcy are ready for their ten round battle, which will be staged at the Oregon building, on the Presidio reservation. San Francisco, Monday night. It has been many a long year since the fans were offered a battle of more than four rounds duration, and old timers are failing for the middleweight muss strong. The Portland scribes raved over the thrilling scrap the rivals put up in the Rose City a couple of weeks

snare the return match.
Ortega finished his training at the
West Oakland gymnasium yesterday,
and the Battler says he is "fit." Ortega says he can fight better here Man Ortega. Harold Algernon Fitz-gibbon Broom, the Battler's trainer, is even more confident. Darcy has been here for a week with Jack Fahle, his manager, and the pair declare they are not afraid of the Oakland middleweight. It should be a wonderful battle. Three six-round preliminaries round out the

Fulton and Moran Will Meet Tomorrow

NEW YORK, Jan. 10.—Fred Fulton and Frank Moran, who are scheduled to meet in an eight-round bout before the Sportsmen's Club of Newark, Monday hight, finished training bere teday, Fulton holds a kneckout victory over Morana scored some months ago at New Orleans, and the Plusburg heavyweight is out to even up the score. Fulton expects to make Moran a stepping stone toward a match with Jack Dempsey.

# CRINGSIDE SIDELIGHTS

Now that Bill Larue has been flattened three times in a the big fellow will take a tumble to himself and check in his ring togs. Bill was a bear as an amateur but has flivvered badly as a professional and it is a cinch that he is not going to get any better at his age. Larue made his big mistake was in not accepting the movie offer he re-ceived after defeating Willie Mechan. Bill was offered a cold \$5.000 for appearing in pictures but he turned the offer down cold. His explanation was that if he ever became the champion of the world the film would be worth hundreds of thousands of dollars. Had Bill taken the advice of his real friends he would be five thousand to the good. And the next fighter Larue should have met was the same Willie Meehan.

Larue and Morris trained together for their fight at Fresno and there were the usual rumors of the scrap being fixed. It must have been fixed pretty when "Fat" got a pair of black eyes in the first round and got snocked for a field goal in the second.

Jimmy Fortney and Salinas Jack Robinson were boxing at Vallejo Thursday night and Fortney was hit low, just a trifle low in the second round. Jimmy paid no attention to the punch but one of his seconds umped up and clamored loudly that his fighter should get the decision Then Fortney, following instructions doubled up in "pain" and gave a fine imitation of being ready to drop. Then when he discovered the "foul" did not go Jimmy straightened up and fought like a tiger through the remaining two sessions. He probably did not know he had been fouled until the second told him about it.

Milt Moore, one of Oakland's most rabid fight bugs occupied a ring-side seat at Vallejo and enjoyed the four knock-outs better than anyone. Every time a little four-rounder kissed the canvas for the count of "ten" Moore yelped "Atta boy, we sure won't miss that boat tonight."

Tony Dutro, the world's champion tonsorial artist, got to talking fights Thursday afternoon and at five o'clock got so enthused that he left, a customer half shaved, grabbed his flivver and beat it for the Vallejo scraps. Half an hour later Mrs. Dutro appeared with a pair of choice theater tickets looking for Friend Hubby. Tony expects to be in right again in a

For a preliminary boy Bud Ridley has come in for a lot of publicity but he has suffered by being barred in San Francisco and Sacramento. Tommy Simpson is the only promoter in these parts willing to use the northwestern kid. Simpson says neither Ridley nor his manager every disappointed him so there is no reason for barring him on this side of the bay. Ridley meets Barney Snyder, the New York bantam-weight at the Auditorium Tuesday night. Joe Ketchel, the Alameda kid who stopped Charlie Sieger the other

eight, dropped in yesterday afternoon to register a kick about the papers referring to him as "Jack" Ketchel. Some years ago when West Oakland was the scene of the weekly battles there were a pair of kids using the name of "Joe" Ketchel and they fought for the name one night. It was a scene of the weekly battles there were a pair of kids using the name of "Joe" Ketchel and they fought for the name one night. It was a tough battle and the Alameda boy won. So it is going to be "Joe" Ketchel in the future. Joe meets Ralph Rivers at Tommy Simpson's show this

There is a match in the making at Vallejo that will pack the Airdome theater when it is staged. Freddie Payne and Young Heenan are the principals. Payne is the pride of the navy yard and Hennan hails from the adjoining burg of Benicia. The lads were matched for last Thursday and the medal was to be worth half the gross receipts of the ticket sale in Benicia. The fans gobbled up \$225 worth of pastboards but an \$112.50 medal did not appeal to Heenan and when he wanted a little more gift he was chased off the card. The Benicia fans retaliated by turning back their tickets and now there is war between the two cities. One of these days Heenan and Payne are going to be turned loose in the same ring and the scrap will be worth watching.

## Duck Season Closes Soon; Fishermen Busy Already

High Winds Bring in Immense Flocks of Geese and Hunters Are Getting Limits.

A goose hunting party that starts out take a like a convention of the royal tooth pullers' association. A bunch of local dentists, headed by Dr. Ulsteen, are making the trip, and all expect to bring back the law-

Those who are booked for this trip are Dr. Fred Barber, Dr. Jones, Dr. Ulsteen, Dr. W. Darling, Dec Mohney, Dr. White and Prof. Bob Burgess.

Although duck busting is poor in all sections, goese were never so plentiful. The grey and honker geese have come in lately on the high winds in countless num-

The high winds that have been blowing this past week have kept the geese in a lower ultitude and made shooting good. Bay shooting still keeps up, and M. Ul-rich reports that in the lifteen years be has been shooting on the bay he never has seen so many ducks as have appeared this past week.

Milt Moore is arranging a shoot for the last week of the season and expects to

In between Pt. Richmond and Rodeo over forty limits of cans and bluebill ducks were shot this week. Steel-head trout are plentiful at all points of the Russian river. At Cazadero the water is teeming with fish, and they have been giving the anglers some rure sport.

take a large party to Sacramento for t last three days.

Shooting around Live Oak picked up this week, and many limit bags of Mallards were shot in the ponds around there.

H. A. Eroberg, who returned from the Russian river, reports that it is a common sight to see thirty or more large steel-bead in one pool.

Bill Keefer made a trip to Wilderness Lodge, in Mendocino county, and says that the rim of salmon in the Eel river this past week was exceptionally large. Keefer says that at one point where the waters receded quickly he saw hundreds of large salmon stranded in shallow water.

In Tocaloma creek the steel-head are thick, though they do not as yet seem to lake the hook and line, but it is lawful to spear one fish, and many are taken this wor.

At Pescadero the steel-head have started to come, but at present small fish only are found,

McDONALD IN DEMAND. Walter Salm, representing the Wichita Falls Club of the Texas League, attended the Southern League, attended the Southern League meeting at Memphis to negotiate with the Birmingham Club for the release of Eddie McDonald, the idea being to make McDonald field leader for the Wichita Falls team. Salm also was willing to deal for a few players with Southern League clubs.

## **BOWLING**

Bethlehem Ship Increased its lead in the Semi-Pro. League on the Maryland allers by taking three games from Money-Pack Smith and rolling 2753, which was high for the evening. Les Smart took two from Oak Tree Products, and Federal lost the old to Acme Grill. Sperilog rolled both high series and game with 602 and 243.

The scores:

made by local liquor dealers state that the loss to the salonmen of this city by failure to secure release of whisky in bond before national prohibition goes into effect next week, will reach at least \$100,000. John Martin, Macdonald avenue and Third street, today sold whisky which he had in bonded warehouses in Kentucky to brokers at a loss of \$12,000. The whisky was purchased a few years ago, and was kept in bond preparatory to remoyal to this city. Martin sold his whisky for \$1 a gallon to speculators who will ship it out of the country before next Friday at midnight. On this whichy all government taxes this whisky all government taxes had been paid.

Such large dealers as M. H. Lu-cey. Waiter Ginaelia and others, all had many thousands of dollars worth of whisky in bond which is almost a total loss.

FOR ANNUAL BALL.
The annual ball of the members
the Brotherhood of Railway Clerks crowded East Shore park pa-vilion to overflowing tonight. The ball is an annual event of the railoffice employees of this city and this year large delegations of members of the brotherhood from Oakland were in attendance in addition to a number of the officers at the head of the organization on this coast. Walter Gieghold was chairman of the committee of arrangements. ATTEND SEWING CLASSES.

The sewing classes for women and girls which have just been opened at the Richmond high school on at the fremiona and sensor on three afternoons and evenings of the week are attracting much attention from the women of the city. # Final Preparations Under Way For Oakland's Artistic Post-War Auto Show

WITH MOTOR CAR DEALERS, TRUCK DISTRIBUTORS AND ACCESSORY MEN WORKING AT TOP SPEED TO BE READY FOR THE OPENING OF THE POST-WAR AUTO SHOW IN THE AUDITORIUM ON MONDAY, JANUA ary 19th, and the motoring public throughout Northern California evincing unusual interest in the local exposition, every sign points to a tremendous attendance here during the week the exhibition is in progress. The big structure, a view of which is shown below is being transformed with artistic splendor to set a proper background for the automobiles and trucks. Some of the new models which are to be seen are shown around the huge show headquarters.

By JIM HOULIHAN.

If doubt exists in any skeptic's of similar character, our suggestion enough to warrant a lot of close the ferry problem across San France event will be all that the name into such a person is to start out study from motorwise folks. Following the announcement of the new Series Marmon 34 with the high efficiency motor last week, A. W. Rawlings, local dealer, has been besieged with inquiries regarding the

inew car.

If H will be on display at his salesrooms this week and will be 1 special feature of the big Automobile show which opens in the Oakland Auditorfum on January 19. Exhibited for the first time in New

Tork the Grand Central Palace Show, high efficiency motor that seems as pronounced a novelty as was the first Marmon 34, shown four years ago, with its radical departure from con-ventional design. The light weight features, deep thin section frame, exrensive employment of alloy steel, find the use of aluminum in motor, body, fenders and gear-set and difterential housings are continued. The body lines of the open cars, though modified and embellished here and there, still retain the vigorous char-acteristics that have given them individuality.

HIGH EFFICIENCY. The high efficiency motor is a triffe shorter than previous models, but the snorter than previous models, but the six cylinders have the same bore and six cylinders have the same principles of design are found throughout the power plant. The manufacturing of the ensine, however, has been changed to the new standards of the provious that were learned by the precision that were learned by the company in producing aviation en-sines for the government. The deli-cate of the machine work and the close accuracy and precision of this power plant is suggested by the splendid external finish of the motor. Gray enamel baked on the entire en gipe from aluminum valve mechan-ism cover to oil base give this unit a flicign air. The iron neader and the two gray iron cylinder sleeve blocks withree units each are as handsemely enameled as the two-piece

Force feed oiling through the main and connecting rod bearings, which that is continued, and in the new design the flow of the oil is so rapid uesign the now of the on is so rapid that it acts as a bearing cooler as well as a lubricant. All this, of course, is automatic and one does not have to trouble his head about it; ing the harder the engine works the greater the volume of oil fed to bearings and moving parts.

PISTONS ARE UNIQUE.

The pistons are of unique two piece construction— a central portion and head of aluminum with an iron skirt that fits over the lower part of he main structure, thoroughly enclosing the wrist pin. This unique design gives the advantages of both metals, a head that does not soot and a skirt that fits snugly against the oil nim of the cylinder sleeve. There are other niceties of the motor design and construction technical man will find.

The body has several inches more tails that will piease the common dials
To begin with, the instrument dials

The Weaver-Welis Company, for many years Studebaker dealers in his city, has entered the local truck field as dealers for the Day-Elder truck, according to an announcement made yesterday by C. N. Weaver, president of the company. The firm will remain the dealers for the Studebaker Corporation, the truck ine being additional. The Day-Elder truck, manufactured in six models, one to six-ton capacity, by the Day-Elder Motors Corporation of Newark, N. J., is

made up of the best standard units used in a large percentage of the leading trucks manufactured in the United States, and while practically unknown in this territory, the truck is among the first five best sellers, in the East, Middle West and North

DEMAND COMPLIED WITH "We have virtually been forced into the truck business," said Chesinto the truck business," said Chester N. Weaver in making the announcement, "by the insistent demand of our customers for trucks which could not be supplied by us, the Studebaker Corporation not manufacturing a truck. When the decision was made the truck market of the United States was combed for the truck market of the truck market of the United States was combed. for one that would meet maximum requirements, not only as to specifications, but at a price that would enable us to meet the strenuous competition in the field. Naturally the tremendous advance of the truck industry had much to do with our

Ten years ago there were but 4000 trucks in use in the entire United States," Weaver continued. "Today there are between 400,000 and 500,000 trucks in service. This rapid advance of the industry is amazing. From a mere handful the industry progressed to a point where it even threatens to exceed the growth of the passenger car business, remarkable as that has been.

PHOMISING YEAR SEEN.

"On the surface these do not seen."

"On the surface these do not seem ber of motor trucks augments in the next ten years in the same ratio as in the past ten years there will be over 22,000,000 motor trucks in use in this country by 1929. There is no reason why the number should not increase this year in the same ratio as in the past, and, judging from present indications, 1920 may exceed the present ratio; at least

here in California."

Farris Wheeler, woo recently joined the Weaver-Wells Company sales organization, will have charge of the truck department, according to an announcement made by E. Wells, general manager of the com-

**VALVE-IN-HEAD MEANS BUICK** 

## THE BUICK **BUILT SPRING**

Is a Long Sweeping Buick Cantilever Spring, With Fourteen Broad, Heavy Leaves, Which Abound in Comfort

It absorbs hundreds of jolts-it eliminates thousands of jars and distributes pleasing comfort with equal care to both front and rear seats, so smooth in action, that each passenger is thrilled with its dependable performance.

Such efficiency is not only the result of construction, but is obtained through the wellhalanced position in which each spring is hung to the sturdy Buick frame.

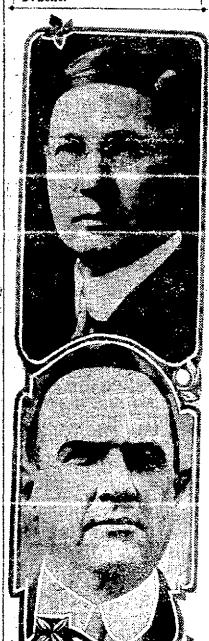

G For Buick engineers by their modern methods of manufacture have placed upon this unit the responsibility of the full load of each car's capacity-a duty in which quality and endurance so reliably work hand in hand.

"How to go" is a question which no longer worries Eastbay city motorists. Automobiles have solved this. But "where to go," even with those owning their cars, is not so easy a matter.
Never a Sunday passes but some

once favored outing spot is "re-dis-covered" by motoring parties and it was one of these somewhat neglected places that the Briscoe scout car sent out by the distributors, the Frank O. Renstrom Company, un-

rovered in Stevens creek.
For natural beauty Stevens creek rivals anything to be found in the elitire state. A wealth of shrubs, trees of every species that thrive hereabouts, a sparkling stream, rocks in picturesque masses and a road that at every turn unfolds a view more inviting than the one that went before. These repay the mo-torist who visits the easily acces-

shie place.

The road that winds along through a narrow valley flanked by towering hills is not a boulevard, of course, and there are several pretty shiff grades and it is necessary to keep a lookout for the felsary to keep a lookout for the fel-low heading your way so that turn-

outs are not disregarded.

The Renstrom party had no difficulty at all in scaling the grades and at the end of the Stevens creek

and at the end of the Stevens creekroad the car was sent over a treacherous trail that in good weather is
used as a cut-off to Congress Springs
and Saratoga.

The trip is distinctly worth the
while of those who have an eye for
the beautiful and who do not mind
an absence of conveniences like gas
trations. At places in the road there stations. At places in the road there are patches of sharp rocks and there are no vulcanizers anywhere nearby, so those who undertake the trip will do well to make certain that

their tires are in good shape.

In traversing the Stevens creek road it is necessary to ford the creek at a number of places, but all such crossings are in pebbly spots and are shallow. One of the most interesting spots along the creek is the old fish hatchery, where there are the finest of accommodations for picnicking—tables, benches, outdoor fireplace and an abundance of fine water.

There probably are 25 summer homes nestling in between the hills convenient to the stream, and during the holidays there were house parties in most of them. A few year-round residents are found in

the canyon.

To reach the Stevens creek road notorists have but to follow the course taken by the Briscoe, which was down the main road to Milpitas, thence to Alviso and then to a point about a mile southeast of Mountain View, where a signpost pointing the way will be seen.

# SCHOOL CLASS IS SHOWN HOW TO

SUNDAY AUTO-CLASS M-An exhibition was given by Willys-Overland Pacific Company at the request of J. E. Carperter of the Alameda high school. Alameda, to about 75 men of the automobile class of the high school on Tuesday evening.

Carpenter, who has seen the new Overland Four taken down at the Willys-Overland branch, was anxious to have his class see how quickly the units of a modern automobile could be disassembled. Accordingly, two mechanics from the Overland shop were picked at random and a new Overland Four, just received from the factory, was taken to Alameda and several operations were gone through to show just what could be

The gasoline tank, which is one unit of this new Four, was removed and replaced in 16 minutes. This necessitated 20 different operations. The rear axle assembly was removed and replaced in just 15 minutes and several other similar operations were

made in as short a space of time.

The consensus of opinion of the class was that should it become necessary to repair an Overland Four on account of its accessibility and unit construction, the expense of repair would be in direct proportion to the time that it would take to disassemble the car, and that a man no matter what repair work was re-

SUNDAY MORNING

doesn't pay to pull a "Brodie." Cap-tain John H. Fahy, advertising manager of the Scripps-Booth Company of California, will restify to that expressive, even if crude, statement.

A land awrited and then a seeming sure arrival of the new Scripps-Booth models caused Captain John to wax enthusiastic in a large an-nouncement he ordered published last Sunday in The TRIBUNE telling Eastbay motorists what a line car it was. The announcement in turn brought to the Hotel Oakland during last week hundreds of interested buyers who wanted to view it. No marvel of motordom was to be seen, however. Some one had slipped up. In the meantime Harry McKnight, head of the organization, was being besieged with queries regarding the whereabouts of the car. Dealers from all over the coast started to arrive here to view the latest model. Imagine if you will the disgust they expressed on find-ing that it had not arrived.

COURT-MARTIAL HELD Hasty consultations among the directing heads of the Scripps-Booth organization were held, with the result Captain "John" was court-martialed, tried and convicted in exactly the same manner that would have followed proper army pro-ceedure.

To be certain that military codes
were properly observed the official
report of the charges and testimony
which R. C. ("Clift") Durant, Harry
McKnight, Clift Steves and Jerry
Collier swear to be true follow:
(General Court-Martial
Orders, No. 1.)

Before a general court-martial which convened at Camp Scripps-Booth, Oakland, Cal., January 5, 1920, pursuant to Special Orders No. January 6, 1920, headquarters Camp Scripps-Booth, and of which General (manager) Harry T. Mc-Knight, Scripps-Booth Company, was president, and Major (Go) Warmington, Scripps-Booth Company, judge advocate, was arraigned and tried.

Captain John H. Fahy, Scripps-Booth Company of California. Charle 1—"Violation of the tenth Erticle of corporation."
FAILS TO KEEP WORD

Specification 1—In that Captain John H. Fahy, Scripps-Booth Com-pany, did, on or about the second day of January, at his headquarters, an automobile cantonment, used at that time for distribution purposes under the act of corporation hereinafter mentioned, cause to have run in the Oakland TRIBUNE, a daily newspaper, one announcement, or ad, calling attention to the fact that for one week, commencing Monday, January 5, there would be on exhi-Billion at the Hotel Oakland, one Scripps-Booth 1930 car, in violation of an act of corporation approved January 1, 1920, and entitled "An ct not to make any announcements or promises for the year 1920 that could not be fulfilled."

Charge 11-"Violation of the Specification 1—In that Captain John H. Fahy, Scripps-Booth Com-pany, did at the Hotel Oakland make and agree with W. C. Jurgens, managent of the said hotel, for an hibis of the 1920 Scripps-Booth ā, knowing at the time this contract was entered upon that said exhibit was a physical impossibility; much to the embarrassment and chagrin of the Scripps-Booth Company of

Specification 2—In that Captain John H. Fahy, Scripps-Booth Com-pany, did communicate and by rea-son of said captain's ad, cause to come to Oakland several dealers, namely Major H. D. Ryps of Los Angéles, Major (Del) DeVeaux of Fresno, Major (Walk) Lyon of Stockton, Private First Class Bawden of San Diego and others of greater or less rank too numerous to enumerate, much to the discom-forture of General (Manager) Mc-Knight, who was forced by the cap-tain's faux pas to entertain, dine, wine and in other ways furnish various and sundry moments of hilarious amusement, causing the income of said general (manager) to diminish

perceptibly.

To which charges and specifications the accused pleaded "Not FINDINGS

Of charge 1, and of the specifica-tion, charge 1, "Guilty."
Of charge 11, and of the specifica-

tions 1 and 2. charge 11, "Guilty."

SENTENCE

To drink one-half of one per cent beer; to refrain from his favorite pastime, African golf, barred from all manufactures games for the period. all penny-ante games, for the period of thirty days."

The sentence having been ap-

proved by the convening authority and the record of trial forwarded for the action of the president, under the 48th article of corporation, the following are his orders thereon:

FINDINGS DISAPPROVED
In the foregoing case of Captain
John H. Fahy, Scripps-Booth Company of California, the findings of
guilty and the sentence are disapproved. Captalan Fahy will immediately return to his former status. My decision in this case is due to the fact that after a thorough investigation I find the railroad administration to blame for the predicament of the accused.

Testimony was brought out at the trial which prove without a doubt that the accused was notified that the freight car carrying the new models had left Denver on the 27th day of December and would arrive in Cakland January 3. Therefore it is my opinion that the accused was perfectly justified in his actions. Furthermore the railroad adminis-tration make positive announcement

the new models will arrive about the 15th of January. (Signed) R. C. DURANT, The Edenvale Ranch.

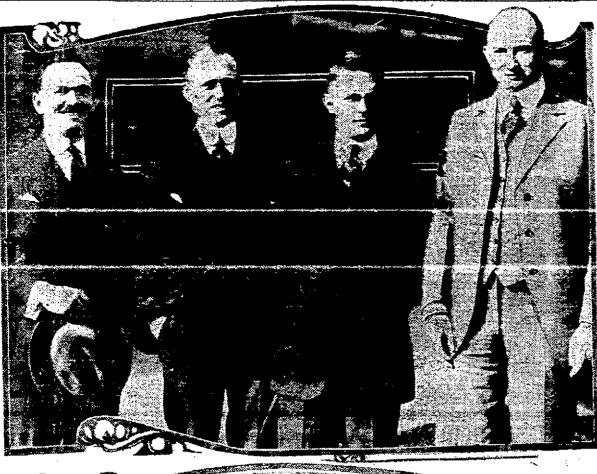

Ey order of the secretary of cor-oration. C. M. STHVES. General (Ability) Chief of Staff. Official.

JERRY COLLIER.

#### COUNTY URGES **ROAD BE NAMED** FOR MAIL LINE

Application has been made by the Linn county (Oregon) court to the state highway commission to have the road from Albany to Cascadia designated as a post road and the road from Cascadia through the Santiam forest to an intersection with the McKenzic road as a forest road. The road from Cascadia through the forest would open up a sportsmen's paradise. A lake region just below the summit of the Cascades is noted for its scenic beauty and its troutf ishing. The route proposed would avoid Sand mountain, turning south at Fish lake, and would form a part of the skyline north and south road.

#### Ammonia Soapsuds Restores Polish

When polished iron or steel become lusteriess they may be restored with ammonia soapsuds and a stiff brush. The parts are rinsed thoroughly and dried by heat. Next a copious amount of sweet oil is applied and then powdered quicklime is dusted on for two days and is then cleaned off with a stiff brush. The metal is polished with a softer brush and with softer brush and with soft cloths until the luster is restored. If the lime is left on, the iron or steel may be kept from rust almost indefinitely.

## The Most Welcome Tire That Ever Came to Market

Men Who Appreciate Superlative Values Prefer The Brunswick

In every great tire factory, the chief question is: "How much can we give for the money?" And the product depends on the policy adopted.

Every man who has become acquainted with Brunswick Tires knows that Brunswick standards are again evident. This famous concern—noted as a leader in every line it entered since 1845 - has once more proved that its policy is right.

A perfect tire is simply a matter of knowledge and standards and skill. No secrets nor patents prevent making an ideal tire.

But standards come first. For in tire making there is vast room for skimping, for subtle economies, for hidden shortcomings. Makers without the highest standards don't build high-grade tires.

The Brunswick organization of tire makers includes a brilliant staff of technical experts. Not a man

among them has spent less than 20 years in handling rubber.

Each is a master of his craft. And the new ideas they bring to the attention of Brunswick directors receive sincere consideration.

Every proved betterment is adopted unanimously.

The Brunswick Tire is a combination of acknowledged featuresplus Brunswick standards of manufacture.

The result is a super-tire, the like of which you have never known before. The kind of a tire you will

gladly join in welcoming. Yet Brunswicks cost no more -

Than like-type tires. Try ONE Brunswick. We promise a surprise. And we feel certain that you will want ALL Bruns-

THE REPORT OF THE RESPONDED TO THE REPORT OF THE PROPERTY OF T

With the opening of the nineteenth annual New York automobile show Miss Anna Altmann of Syracuse, N. Y., has been proclaimed the Motor Queen of America and the winner of the first automobile beauty contest ever conducted.

"It looks like the old colonel took in too much territory," remarked James Gray, manager of the Western Motors Company, local Maxwell dealer, after reading a long telegram from the judges' committee yester-

from the judges' committee yester-day.

"In rendering their fecision," he continued, "a difficult one, that was only agreed upon gater six hours of serious and at these heated consideration, the judges not only salute the little western girl from the Smelter City of Butte, but unanimously agree that Colonel Stanley's judgment is seriously to be reckoned with.

AMBITIONS SOAR

"Had he been content to claim
the honors for his favorite, limiting
his remarkic empire to the Pacific slope or indeed as far east as the Mississippi, the colonel, as the final ballot showed, would have received the endorsement of the committee. But his ambitions were sweeping and when he said "twenty thousand miles" which included twenty-seven states, his challenge produced a tu-mult of competition.

mult of competition.

"Over 3000 pictures were received up to the closing hour, from Hawaii, the District of Columbia, and every state in the Union. To keep the contest thoroughly within the limits of the motor world the judges were from four of the leading auto motive magazines, as follows: Frank Roche, publisher Automobile Topics; L. P. Taranatous, editor Motor; P. M. Jopp, automotive editor Popular Science, and S. L. Hodges, art director Motor Life.

CONTEST NARROWS DOWN

"Each of the foregoing carefully

"Each of the foregoing carefully considered the great display of photographs, until finally fifteen pictures were laid upon a table for special consideration. All but four were gradually eliminated. An hour were gradually eliminated. An hour passed and the same four remained on even terms. At length a genuine deadlock prevailed and at the end of the fourth hour it was agreed to call in a qualified critic whose decision would be without appeal.

Coles Phillips, the artist, whose American girl types are so strikingly handsome and wholesome, was extended an invitation and accented

tended an invitation and accepted. Before him were laid pictures of these four pretty candidates: Miss Elizabeth Hawkins, Atlanta, Ga.; Miss Ellen Anderson, St. Louis, Mo.; Miss Anna Allmann St. Louis, Mo.; Miss Anna Altmann, Syracuse, N. Y., and Miss Hilda Ketterer, East Orange, N. J., from whom the judges refused to proclaim one superior to the other. the other.

the other.

Failing to win over any of the four individual judges to a compromise. Phillips eventually gave the honor to Miss Altmann, a brunette type, whose features, according to the artist-judge, were beautifully regular and the nearest to a perfect picture of all submitted.

By PAUL GOLDSMITH

Telegraph avenue has at last beer finished, the new railroad tracks have been laid and the surfacing of the street has been completed and a much-needed new route to Berkeley has been opened to the motor public. This piece of work was finished last week after having been delayed for many reasons for several years. But the new road is welcome, even though long delayed, and it will furnish a much needed relief to the congestion of motor travel between Oakland and the university

The Telegraph avenue job has been bard one for all a long one and a hard one for all

WORK STARTED IN 1913 The first piece of work was done in 1913 from Fortieth street to Fiftyfirst. The railroad company spent and put in a permanent roadbed with good rails and good surface. with good rails and good surface. The intention was to finish Tele-graph avenue from one end to the other at that time, and, even though finances were none too good, the company managed to lay aside a nucleus for a construction fund. Then came the war in Europe but eastern steel mills found it more profitable to make munitions for Europe than rails for Oakland, Cal. The price of rails went up and up and up, and the financial condition of the company took on reverse english and went down and down and Then the United States got into the war and it became impossible to get material or labor and the work was prohibited by the gov-

When the war ceased the company began work upon the section from Fortieth street south to the junction with Broadway, but even this languished from a lack of ordinary labor. The company found it ilmost impossible to get track hands. It was thought that the entire forb would be finished long before the winter set in, but the lack of labor stalled the track gangs and the company found itself up against the necessity of stopping work upon the upper end of Telegraph avenue in order to rush the work at the lower end to get the streets clear in time for the holiday trade. So track gangs were kept jumping about to meet necessities, but at the expense of the orderly progress of the work.

GOOD ROAD OPENED

But Telegraph avenue is now finished and there is a good road through to Berkeley that will be a great relief to Grove street, which has carried practically all of the

the motorist a perfect highway to old Temescal, where he can choose between Shattuck avenue or Tele-graph avenue upon which to finish his trip. Both streets are in good, not 'nerfect condition.

The work at the junction of College avenue and Bancroft way, which was done by the city of Berkeley. has been completed, climinating a very dangerous junction. The city of Berkeley bought the land on the outhwest and southeast corners of junction and when street cars and arrive on the coast.

### Speeders in City To Be Arrested Or Police Fired

"Arrest all motorists who exceed 15 miles so hour through the city streets or be fired from the police force." That is the order issued by Police Commissioner Roswell I. Wood to the members of the Haverhill, Mass., police force. A special detail of men has been put on to watch traffic. Haverhill is on the through route from Lowell and Lawrence to and from the north shore in one direction and to and from New Hampshire and Boston in another.

The order came as a result of four children being killed in a few days by motorists, some from other cities. Police Commissioner Wood in his order called attention to the fact that the State law provides 15 miles an hour in the congested city streets, and eight miles turning corners and at crossings, with a stop where street cars are letting off or taking on passengers, yet some motorists race through the city at from 40 to 60 miles un hour if they think they are not observed. With the edict, stop speeding or get off the force," the policemen intend to obey orders.

WASHINGTON, Jan. 16. -Men prominent in national affairs who believe in a federal highway system are multiplying in numbers, according to replies to a communication sent by the A. A. A. Good Roads Board asking for definite expressions on this far-reaching subject.

That Major - General Leonard Wood, because of his military ex-perience, would favor a comprehensive highways plan is quickly under-standable, but when William Jennings Bryan adds his voice to those who command a federal plan, the evidence is apparent that a big interstate system is a thing of the not distant future. In General Wood's reply he em-phasizes maintenance and the fact

military at the same time.

"It is especially important that we should provide for continuous maintenance; in other words, those roads should always be kept in condition for service and never allowed presuments. The solid equipment of the solid equipment of the solid equipment of the solid equipment of the solid equipment.

week ago of a train load of Re-public trucks has created no little amount of gossin among competitive dealers and truck owners. Its size was large enough to justfy the talk since the time doesn't date many months back that the arrival of as much as three carloads was regard ed as no small shipment.

Alden McElrath, local dealer, tells the story of what warranted such i large order being shipped in one Hotment in the following words

"It has been impossible for the Pioneer Motor Company, Northerh California distributors, to secure enough Republic trucks in the last year to supply the demand in this territory, and when they sent the Republic Motor Truck Company an order for a train load some three months ago the factory stated in would be impossible to make such a shipment. After we showed them signed orders for 75 per cent of the quantity they agreed to take the order, but would not promise make shipment in a solid train load. However, through herculean efforts on their part, the train was despatched from Alma, Mich., Decem-

RECORD ACHIEVED

"This is the largest shipment of motor trucks ever shipped to one destination for domestic purposes. The size of this shipment speaks wonders for the growth of the Republic truck in this state.
"From a small beginning in 1912 the Republic truck has shown a re-

markable growth.
This is a record, I think, without parallel in any industry and was made possible only by the quality of Republic trucks, service perform-ance in all lines of business and the reputation of its builders for main-taining an honest and clean-cut pol-

icy of rendering service to owners.
PNEUMATIC TIRES ORDERED "The reserve power of the engines used in Republic trucks, coupled with the Torbensen internal gear drive, which transmits to the driving wheels more than 92 per cent of the power which the engine de-velops, gives assurance that the truck will handle its load under all kinds of conditions when other that roads can be commercial and

# Releasing the NEWNATIONAL

Motor Row has never welcomed a better and more attractive car than the new National Sextet—the finest automobile that National has ever built in twenty years of pioneering, development and achievement.

For the National Sextet has charm and dignity to recommend it. It is smartly continental, with low-hung body and lines straight as an arrow. It is built in five custom body styles—Touring Car, Phaeton. Roadster, Coupe and Sedan.

And the engine!—it is the ablest that National engineers have ever created-tough as rawhide and abundantly endowed with flexible and unobtrusive power that makes for road mastery, easy driving and quiet operation.

You'll like the National Sextet, we know, the instant you see it, and you'll have a most wholesome respect for this new and finer National when you proudly sit behind its wheel.

coad and you want to pass the man ahead of you, use your warning sig-nel, but do not sneak up behind him and then roar like an avalanche.
One of the things that Americans are criticized for is lack of courtesy, and this came is more or less true, sorry to say.

Courtesy of the road is one of

the things which has to be developed with the growth of the automobile industry. It is just as easy to be courteous on the road as it is to be courteous at home.
"Last summer two Australian lads

drove a Buick car across the conti-nent and on their arrival here they had a tale to tell that was not pleas-ing to the ears of a proud Ameri-can," says R. F. (Bob) Thompson, general manager of the Howard Automobile Company.
"These boys had seen four years

of war in the trenches and they were here to look over the country and study its people. They told me of several acts of discourtesy that should not have happened to them. They told of men rushing up behind them in their cars and scaring them with their horns. "It is all right to warn the man ahead that you are about to pass him, but it is all wrong to try to

scare him aside. "By all means use your warning signal when you desire to pass another car. It tells the man ahead that you are about to pass him and he will then drive over to the side and let you by, that is, most of the

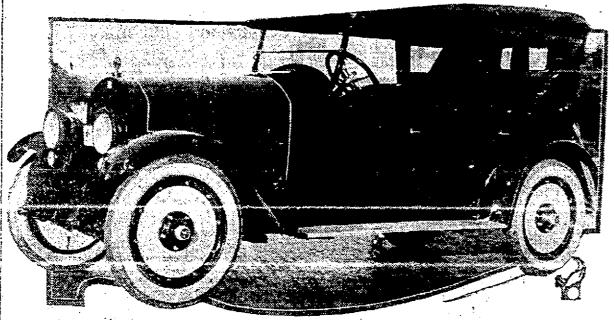

"When you drive along the high-way you will always find some 'nut' who will try and pass everything in sight. 'There will undoubtedly be increases in prices all along the line this year. I find that all the plants there are talking increases because there are talking increases because of the mounting costs of material and labor and everything that goes

#### Average Battery Good for Twenty Months

The life of the average storage pattery is from 15 to 29 months and battery is from 15 to 28 months and with proper care should last approximately two seasons, according to Ernest E. Fetter, local Willard battery agent, 21st and Webster streets. "Starting with a new battery and given the attention afforded by the willard Storage Battery Company," said Fetter, "there is no reason why the battery should not vun an entire year with complete satisfaction.

"At the beginning of the second season, if the motorist is wise, he will put the battery in the hands of a battery expert and have it reinsulated and generally overhauled. This will enable him to astrt the second season with a battery that is even though the battery already is

"However, there comes a time fully applied, especially if the road when the battery must be replaced surfaces are wet. An automobile with a new one, since batteries, like should never be brought to a stop in everything else in life, do not last mud, clay or sand, snow or slush, if forever. No matter how far gone it can be avoided. Whenever road the battery is, it can always be re-conditions are unfavorable, the paired though the repairs may ex-

# Announcing—

# FAGEOL

-7-Speed Compound Transmission

36% More Truck Speed 91% More Pulling Power Without Added Motor Power

THE Fageol 7-Speed Compound Transmission caables the Fageol truck to cover the level road at passenger car speed and to negotiate the steepest grades with ease.

This special truck transmission, as developed by the Fageol Motors Company, has vastly increased the field of truck operation, with reduced operating cost.

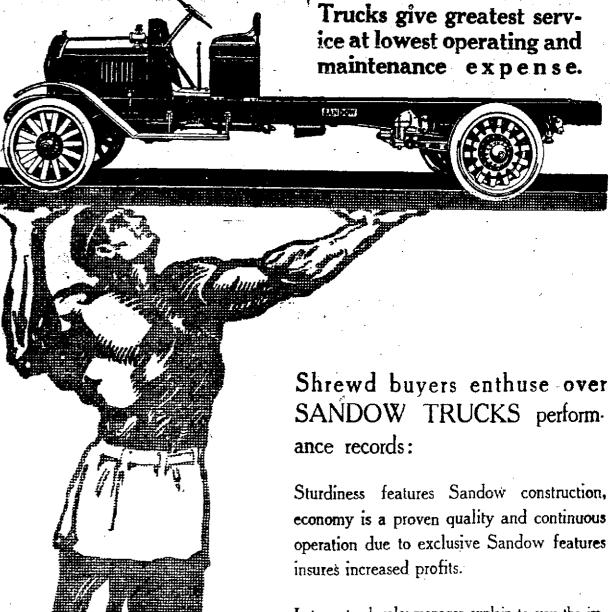

Over three hundred Fageol trucks operating under most difficult conditions on the Pacific Coast during the past two years, prove the soundness of the principle involved.

Leisure Women And Politics On New Basis

OF THE GREAT EASTBAY DISTRICT

A group of "Peter Pans," an aggregation of girls of the school set who have pledged themselves to stand ready to help wherever help was needed in the philanthrophies of Oakland. The club has arranged for a dance at the Home Club on St. Valentine's Night, the first of a series, which offers gay promise to the subdebutante set and its cavaliers. They are, from the left (upper group), the MISSES SIBYL SMITH, BESSIE PARMER, KATHERINE COLLINS, IRENE RENARD, ELIZABETH BREUNER, WINIFRED HILL. Below are the MISSES LUCILLE WISTRAND and ESTHER BAUM.

By SUZETTE

other days, it was only "after the coffee" that politics was permitted to be discussed with us in America --- "women weren't interested," was which was a matter of

mazement to Englishmen who tarried among us, for among cultured women of his Tight Little Isle politics is as much a part of their outlook upon life as are the arts, or the play, or children, or the servant question, or social problems; and that which concerns the government and the men who run it are consequently natural topics of dinner talk. Indeed it is said of English women of the smart set that their interest in politics has been back of the service of some of the greatest leaders in English history.

And now, crystalizing the interest, an Englishwoman sits in Parliament, who, as all the world knows, was before her marriage to the heir of the Astor millions, an American girl of brains and incidentally of beauty. But the trend of thought in America in the new year is changed. Nine-

teen-twenty is o'er full of promise Today women of affairs, even as men of affairs, are on familiar terms with big national issues, and have well-defined opinions upon them, for this year, when a President of the Nation is to be elected, the women of twenty-eight states will assist in his selection. There's a definite reason for the awakened spirit.

Tomorrow a group of interesting women from the East will arrive to crystallize the awakened interest in the women of California. Miss Mary Garrett Hay of New York among them—one of the most brilliant women in Gotham, and a close friend of Mrs. August Belmont and other so-

With the coming of the Eastern Republican women, a score of social affairs have been planned, men women of distinction to assemble together to talk over the problems that the year will develop.

And with the coming to San Fran-

cisco of the National Democratic cisco of the National Democratic Convention, when scores of interest-ing men and women will come to the Golden Gate, it is not to be wondered and that on both sides of the bay women of leisure are meeting to-pother to get at the essence of things gether to get at the essence of things that are bubbling in the political

cauldron. Should your wife suddenly develop a keenly acute knowledge of the rame, he reassured. She is simply following in the tootsteps of her Das

#### MILLS CALLING

And her friends are foregathe from the four corners of the bay country, to assemble under the oaks on January 23d and 24th, even as Harvard and Smith and Bryn Mawr are calling, to take stock of their Alma Mater.

That Mills is crowded and running over—that only a fraction of the freshman applicants could be admitted-is one of the stimulating truths that are engaging the attention of her graduates. And there are a lot of other stimulating things that will engage the women who are "Mills girls," among them the fact that half the states in the Union and five foreign countries are represented in college this semester.

The Milis Service School-which incidentally sounds very formidable—is to be the happiest sort of a rendezvous for all who love the traditions of Mills and who want to prove up" on their claims.

During the two days of getting together, there will be inspection of ail the departments, talks on achievements and needs and outlook, but the really alluring factor is promise of an assemblage of hundreds of kindred spirits with a big ideal—the equipment of Mills to meet her destiny.

And to meet it the Million Dollar Endowment Fund is on the way. Incidentally, attendance at the Service School holds no financial obalumnae are anxious to establish.

Among the women of affairs who are directing the big roundup of 'Friends of Mills' for the late January days are the Mesdames Mabel Gray Potter, Ida Denman McNear, Lizzie McAllister Perinc, Lillien Dolliver Byington, Rosaline A. Keep. Joyce Lobner, Beatrice Youngberg, Sydnia Bernard Beretta, throughout the year. Myrtle Millward, Merienne Borger and Electra Camden Wetmore, members of the alumnae who have adhered loyally to their Alma Mater from the portentous day of graduation to today.

Those will be two busy days.

## Miss Redman Back from Eastern Trip

Few young girls to whom the lighter things of life hold a strong appeal return from their travels with such rich experiences as has Miss Frances Redman, who with her mother, Mrs. Landers Redman, returned to their home in Piedmont this week, after a two-months' tour of the East. While in New York, the California

girl saw every worthwhile play, heard the operas, and saw the exhibitions that are tumbling over each other in the big town. And she has brought back definite impressions of her experiences, and can put them in words—an art that today is all but lost. And the while, she found time to do the social things without which a visit in the busy burg is as a garden without a rose.

In Washington, however, she found her-greatest interest. Here, she and her mother had many friends in dip. lomatic circles and with them ata number of interesting affairs at the embassies, including a number of dinners. And what is more interesting to an alert girl than groups of intellectuals from the social rounties. countries over the water? Always there is a new viewpoint.

The Redmans were guests at the opening night of the Corcoran Gal-lery annual exhibition of contemporary painters—diplomatic night, it's called, because it is the big night; set aside for distinguished guests, that, of course, include the diplomatic corps and its entourage. The reception that opens the exhibition is one of the most exclusive affairs in the capital. Wherever foreigners, are, there always is a live interest in art, and they attend exhibitions with as much zest as many Americans do: a jazz concert. But then—the Eurohave been a longer time getting civilized.

The viewpoint of the Piedmont girl is another evidence that beauty is compatible with brains

#### SUPPER DANCE

The most brilliant foregathering of the week took place last night at the Claremont Country Club when Mr. and Mrs. Percival Walker were hosts to a supper dance attended by some two hundred guests, friends coming from either side of the bay for the delectable water. for the delectable affair. To add to any number of dinner parties preced ing the affair among them those given by Dr. and Mrs. John Louis Lohse, Mr. and Mrs. William Volkman, Mrs. Burr Eastwood, Mr. and Mrs. Charles Bates Jr., Mr. and Mrs. Peter B. Ayne, Mr. and Mrs. Wick-ham Havens.

Thursday evening next, Mr. and Mrs. Stuart Hawley are to entertain seventy-five guests at a dinner dance majority of their guests to be from the east side of the bay.

Mr. and Mrs. Donald Lamont (Helen Breck) are the happy parents of a little sop, the second child in the The baby will be christened Donald Breck Lamont.

Mrs. George Tyson gave a prettily appointed luncheon at the Claremont Country Club Tuesday, when a group of friends interested in the golf cournaments were her guests. **☆ ☆ ☆** 

Mrs. Herbert Hubbard who returned Tuesday to her home in Redlands after a visit with her parents, the Clarence Wetmores of Piedmont, was the motif Monday afternoon for a bridge party with Miss Helen Coogan acting as hostess, at the home of her parents, Mr. and Mrs. Timothy Christopher Coogan, About thirty guests were invited.

Tuesday afternoon bridge was

again the diversion for another gathering of friends when Mrs. Clifford. Durant entertained forty guests at Edenvale . The affair was planned in compliment to Mrs. W. C. Durant, who is visiting here from New York. The following day Miss Katherine Maxwell was hostess to forty-five guests for bridge and tea, entertain-

ing at the home of her parents, Mr.

> keenly, followed her example, tryexpressionless eyes. And as I gazed an indefinable repulsion ran through me as if I were in the presence of something deadly, menacing. I was sure, also, that behind those halfclosed lids the man was missing no detail either of our appearance or of the room in which we were. "You've brought something?" Lillian queried at last, sharply. "Give

t here."
He looked at her blandly, then deliberately turned his back upon her and approached me, holding out a tiny parcel. Then he resumed his former position. Despite his pas-sivity, I sensed intense curiosity in nis soul. He didn't intend to go until he had seen the contents of the package.

But Lillian made short work of him. "Take him away, William, and see

that he goes to his side of the grounds at once," she said.

me and I undid the parcel.

The contents were what I expected, the single gold coin torn from the bracelet I had owned when "Oh, of course, Mrs. Underwood." she said graciously. "If you wish to see the man, that alters matters. Bring him here at once, William," once" written upon it in the curious once" written upon it in the curious left-handed chirography of an ambi-dextrous person—the handwriting I was sure I had seen before. Row Madge Found Out Who Were

the Men Next Door.

Of course, Lillian was already in possession of the facts concerning the other bizarre message sent me by the men next door, so that she needed no explanation of the gold the house of mystery. But she studied them long and carefully.

"i believe you said you thought that you recognized this handwrit-ing, Madge," she said at last, look-"I don't recognize it," I explained carefully. "although I have been upon the point of it several times. I have seen if somewhere, certainly, but where is beyond me. However, I am sure it will come to me soon, represent models.

perhaps suddenly." "It would be of help to me just now," Lillian said regretfully, "But there's no use crying over spilled milk, and this is a chance I mustn't

She-rose as she spoke, adjusted her dress, put involuntary smoothing hunds to her hair, taking from her knitting bag the small pistol she carried when on dangerous missions, she thrust it into the loose folds of her

You're surely not going over there!" I gasped, as the meaning of her preparations crept through my "i most certainly am." she retort-

"I want to see that outfit for myself, and there never was a better opportunity in the world than "I am going with you," I said

spiritedly, rising.
"You'll do nothing of the kind,"
she retorted good-naturedly, pushing me back into my chart, and I saw she was in deadly earnest. "If I satisfy myself that these men are in reality representatives of your father it will then be plenty of time for you to go over there. But if, on the contrary, they belong to Grac Draper's gang, on no account should you go near them. And the appear-

ance of that Jap certainly bears out our theory"-she inclined her head toward my mother-in-law-of then evil character. That fellow is a bad actor if ever there was one."

My mother-in-law smiled complacently. But I was distressed in-

deed.
"THEY LD NOT HARM ME."
Lillian.

"Fidulesticks, my dear," Lillian ties, returned lightly, "They'll not harm W If they're the enemy tamp, they're not particularly anxious to can constantly be used without harm. The gentlest her and bowel tonic bazz saw—forgive the seeming conbozz saw-forgive the seeming con-ceit-as I am. ### WANTS HIS MONEY BACK

The youthful hat of black sill, beaver carries the upturned Spanish brim, whose edge is couched with ostrich in the variegated tones of nasturtium, Hamingo, jade, orange and blue. This feather trimming gives a charming color scheme and the fronds are bound to the hat with tarnished gold thread.
A duvetyne hat that affects all

unusual tam crown is shown in the model of tan duvetyne, centered with a cockade of blue grosgrain ribbon.

aglow with glad excitement, for I upon the piece of paper," I return- restful contentment as he sat in hist either been afraid or too proud to tempting." Lillian replied causticaled.

"But you had seen it upon the other message." my father protestiate. He was but the wreck of the with his left hand."

"But you had seen it upon the at his feet, his hand stroking my that, He was but the wreck of the rather robust elderly man who had left me so dramatically to go to the definition of the deviles. I had guessed the deviles own right from the assurance he had given the deviles own right from the assurance he had given the deviles own right from the assurance he had given the deviles own right from the assurance he had given the deviles own right from the assurance he had given the deviles own right from the assurance he had given the deviles own right from the assurance he had given the deviles own right from the assurance he had given the deviles own right from the assurance he had given the deviles own right from the assurance he had given the deviles own right from the assurance he had given the deviles own right from the assurance he had given the deviles own right from the assurance he had given the deviles own right from the assurance he had given the deviles own right from the assurance he had given the deviles own right from the assurance he had given the deviles own right from the assurance he had given the deviles own right from the assurance he had given the deviles own right from the assurance he had given the deviles own right from the assurance he had given the deviles own right from the assurance he had given the deviles own right from the assurance he had given the deviles own right from the assurance he had given the deviles own right from the assurance he had given the deviles own right from the assurance he had given the deviles own right from the assurance he had given the deviles own right from the assurance he had given the deviles own right from the assurance he had given the deviles own right from the assurance he had given the deviles own right from the assurance he had given the deviles own right from the assurance he had given the deviles own right from the assuran with his left hand."

"I know." I answered, feeling my face flushed with embarrassment, rible experience must lie behind his colorless. But her owns and and I was sure that I knew the lined face, his hair-far whiter now handwriting on the other paper, but than when he had left New York, couldn't place it. And I have seen his almost emaciated figure, his Dr. Pettit write with his left trembling hands.

"Distinctly worth while," Dr. Pet-Without volition of my own I to agreed, and there was that in his found my eyes drawn to those of deep tones which made me glance Without volition of my own I found my eyes drawn to those of the young physician. There was a look in lis eyes, a flush upon his thin cheeks that told me he, too, remembered that hertic luncheon when he had traced the unmenange characters ambidexterously in his preoccupation and agitation.

I took refuge in feigned surprise.

TWO THINGS EXPLAINED.

"So you were the man in the taxi and on horseback!" I exclaimed as if the idea had just occurred to me, but I saw a look of ironical understanding flash into Dr. Petiti's eyes, and there was that in his deep tones which made me glance up at him involuntarily. I looked away again as quickly, for his dark dentity be thought that she still loved the man who had subjected her to such bitter humiliation. I, who had seen the hopeless love of her-self and Robert Savarin because of the legal the binding her to Harry understood her better.

"The WEAK SPOT.

"Thank heaven we'll be able to you every day now," my father looked keenly at her, down upon the arm of his chair and an expression of pitying comprehension crossed his face. Evidently the thought that she still loved the man who had subjected her to such bitter humiliation. I, who had seen the hopeless love of her-self and Robert Savarin because of the legal the binding her to Harry Underwood, understood her better.

"The WEAK SPOT.

"Thank heaven we'll be able to you every day now," my father should become so utterly degraded as to be the traitor to his country we had thought him. She had faced by the house of the man who had called her wife should become so utterly degraded as to be the traitor to his country we had thought him. She had faced with you, that he has known all this the prevented to me, had given me many uncomfortable hours of accusative to the man who had called her wife had looked the man who had called her wife had become so utterly degraded as to be the traitor to his country we had thought him. She had faced with you, that he has known all this hand.

"Will it be safe?" Lilllan hegan, having herself to

## Comedian, Former Oakland Boy, Captivates British Audiences

Walter Catlett Invited to Be

Britisher Over in London an Oakland boy is taking the town by storm and being invited to become a citizen and remain there. They say he does not appear Amercan at all, and hat his comedy is so funny that it cannot escape detection even by the Britisher. His name is Walter Catlett, star of the "Baby Bunting" show at Shaftesbury theater, and he began his career as a comedian under the tutelage of Ferris Hartman at Idora Park, for years dean of Pacific coast come-dians, in 1906, in musical comedy. According to the description of his art in the reports of the opening of the play, in which he is accredited with registering a sensational

On Monday evening, Oakland Circle, No. 266, held an interesting meeting with a good attendance in Pacific building. Guardian Neighbor Mrs. Jenkins presided. All officers in their respective places. Visiting members from various circles were present. Mary Keane from Kennett was admitted by transfer and Mrs. Martha Borr was initiaited. An interesting letter was read from Mrs. Logan in Tonopah. The committee on public installation reported all arrangements completed. The event will be held on Monday evening, January 19, in Pacific building. Mrs. Julia Cruza as installing officer, as-sisted by Mrs. Williams, Mrs. Man-daser and Mrs. Holmes. Members and their friends are cordially invited. After the close of installation ceremonics an interesting program.

will follow.

Mrs. Marie Baldwin, committee on Mrs. Marie Baldwin, committee, on membership campaign, announced that the grand guardian, Mrs. C. C. Van Oorsdall, will make an official visit to the circles in Oakland on Wednesday, the 28th. The meeting will call to order at 10:30 a. m. at Pacific building. Lunch will be served at 1 p. m. in the banquet hall. At the afternoon meeting an address will be given by the grand guardian and a class initiation. In the evening the grand guardian will give ing the grand guardian will give an address on "Insurance Problems" (in the Wigwam Hall), and Oakland Guards will give a fancy drill, after which dencing will follow. The public is invited.

BUNDLE OF STICKS.

Oakland Lodge, No. 1, Bundle of Sticks, held its first annual celebration and Christmas Tree festival at Odd Fellows Temple on Saturday evening last. President John J. Fieberling made an address befitting the occasion and was followed by S. Lorenzen, D. D. G. M., who thanked the committee in charge for the pains taken in making the affair so great a success. Bob Grant headed a live bunch from Alameda who showed paper, speaks of his dancing as an exhibition of "comedy, cleverness and art unlike anything seen in London for a long while."

The Sphere

Blackledge, Miss Anderson and Mrs. Foster, had charge of the "kiddies" complishments are very varied and and the games played and songs he excites enthusiasm in a hundred sung were so amusing and reminisaspects of his art." The paper says he "has taken the town by storm."

The Sketch devotes two pages to illustrations, and says Catlett is "an importation which Londoners approve. He suggests his nationality of the suggests had a suggest to the suggest of the su great deal of credit, for without their help the elaborate plans could not

have been carried out.
At the next meeting of the lodge the usual jinks will be held and will be open to all Odd Fellows. There will be songs, dancing, music, boxing, success as a comedian of unusual wrestling and a program replete with quality ad clever personality, and is surprises for those who attend.

mother."
The last words to be buried—to a processional chant written in secret by the children—were "ourn" and "yourn!" It is a sad fact that "ourn" rose from his flower-decked grave a few days later, but he was successfully buried again.

The children teach themselves history by means of a sort of wooden ladder, on the rungs of which hang cards bearing such inscriptions as "Wars of the Roses," with the date on the back. On the rung the number of the century is printed. The game is for one little boy to turn his back on the ladder while another picks a card at random and reads the inscription. In a second or two comes the answer, giving the date.

1 was invited to lunch and tho

children saw that I was comfortable. A tiny child stood up and said "grace." I learned that they conduct their own morning and evening prayers.
With gariands of leaves in their

hair they afterward danced the "Spring Song" and Chopin's Funeral "Spring Song" and Chopin's Funeral March, and their sense of rhythm, meaning and sensibility was astonishing. The only lesson in dancing they have ever received was "do what the music tells you." They danced "God Save the King." and the stiffness and duliness of our national anthem was almost ludicrously illustrated.

Lord Glenconner is the chairman of the committee of educationalists in charge of Tiptree Hall. Norman MacMunn is the head of the school.

MacMunn is the head of the school. Funds, I believe are organily needed if this experiment in education is not to be abandoned.

## Collector from East Buys Fine Montecelli Here

By LAURA BRIDE POWERS "I believe that Music. Literature and Art are as necessary for the life of the soul as are food, clothing and

habitation for the body.

"I believe that Art is based on the
Eternal laws—Harmony, Truth and Proportion.
"I believe that the contemplation of

a great picture will strengthen these truths in my own life. "I pledge myself to open my mind them."

to all beauty.
"I will try to awaken in myself the Genius of Understanding and Appreciation."

"Nature furnishes me only with suggestions," Keith was fond of saying. "The sum of these I put in my picture."

"I will try to awaken in myself the Genius of Understanding and Appreciation."

A collector of American paintings who subscribes to the Credo of the esthete wholly and joyously—William T. Cresner—was a visitor this week to the Blue Bay country spending several profitable days in Coakland.

He comes to us from Chicago—He comes to the from Glencoe to be literal—where in the gallery of his colonial home in the series suburb are assembled representative examples of many of America's foremost painters—the poet-realists of the nation—upon some or whom the crown of glorious achievement is already shining.

Confessedly we are slow to differentiate between the mere technical and the artist—between the man who paints between the man whose soul is aflane with the glory of a sunset, or the vitchery of water dancing under the glory of a sunset, or the vitchery of water dancing under the glory of a sunset, or the vitchery of water dancing under the glory of a sunset, or the vitchery of water dancing under the glory of a sunset, or the vitchery of water dancing under the glory of the man whose politures, and the bear painter as well as an artist, his technique is a part of his fibre. He has something to say, and he says it in what seems to him the best language for its expression. That is the man whose pictures, born of the soul, find their reactions in the soul.

They soothe and comfort and refresh the spirit—and insofar as they accomplish this thing they are touched with that spiritual fire that

touched with that spiritual fire that we call genius.

Among Americans, upon whom rest the laurel wreath. Mr. Cresner has assembled Inness, Blakelock, Wyant Twachtman, Frieske, I. Frances Murphy, Winslow Homer, Childe Hassam, Tryon, Homer D. Martin and our own poet-painter, Keith—Keith at his noblest—and a Monticelli, acquired during the tarrying time of the Chicagoan among us. And thereby hangs a tale.

A goodly company, you will say. And Paul Dougherty is there, and Lillian Genth, and the erstwhile Cali-fornian, William Ritschel, he who,

seas.

The moderns?

If you limit the term to followers of Cezanne, or Gauguin. Van Gogh or Matisse, they are not of the assembly, nor are the followers of Picabia, Picasso or their brethren of the Great Experiment.

them growing ecstatic over the poetic concepts of the dreaming Barbizonians, and their brothers in realism, the Impressionists.

Of the ardent disciples of light,

the Chicago collector is represented by Childe Hassam in "Summer Breezes," a glowing canvas, vibrant with its little patches of broken color.

AFTER YEARS OF TRIBUTE TO TICKET SCALPERS. AN AWAKENING

-A new member has joined the Governor's official family in the person of Ray L. Riley, the recently appointed real estate commissioner. Another commissioner in a State which is ruled by commissions may not be a startling inno-

vation; but according to reports, Riley is likely to cut ice. He comes from San Bernardino, where he is a druggist as a main line, and a county supervisor as a side line. However well known Riley may be in Southern California, he is comparatively unknown up north. But that is susceptible of correction. Riley has a way of working that is considered all his own. Some sort of a line as what this is may be gained, it is said, by taking account of Secretary of State Jordan in action. Both believe in personal contact with the sovereign voter. Each extends the joyons hand and offers the gladsome greeting. But Riley is a summer zephyr, a breath from his native orange groves, in comparison with Jordan's trade-wind gusts. Also Riley is keen on sidestepping trouble. When it was suggested from the Governor's office that the Governor (or those who do his politics) would like to discuss patronage with the new commissioner, he told them to "take it all," and thereupon informed whom it might concern that applicants for jobs must see the Governor. It saved trouble right at the start. Riley intimates that he is going to move around among the real estaters. There must be thirty or forty thousand of these, and when he shall have seen them all, Secretary of State Jordan will not be able to give him cards and spades as to the political situations. Every city, town and hamlet has real estaters, many of them have flocks, and they are particularly posted as to the political leaning and idiosyncracies of the residents; consequently they afford an uncommon media through which to size up the political trend.

#### How Riley Landed

How did a druggist land the job of State Real Estate Commissioner? When Governor Stephens signed the bill which creates this office, politicians and real estate men set about "picking the winner." Oakland and San Francisco got behind Lesite burchs, accorney for and virtually manager of the San Francisco Real Estate Board. It was figured that the appointee would come from the ranks of the real estaters, without much regard for party affiliations. Nobody looked up Burcks' political record. If anybody had he would have found that Burcks is the friend and supporter of Louis Mooser, Democratic war horse, and that when he did dabble in Republican affairs it was to support Rolph for Governor as against Stephens. A big bundle of resolutions and petitions was sent up in behalf of Burcks, with the understanding that Porter Giles was to be his chief understudy. There was unfeigned surprise when the Governor announced the appointment of Riley. A chorus at once went up. "Who's Riley?" and the answer was that which is outlined above. The appointee has a reputation as an organizer and a "mixer," but the chief reason for his appointment may be that he is likely to be a foil to H. L. Carnahan. It will be remembered, of course, that Carnahan was a member of the Governor's official family once upon a time, as Commissioner of Corporations, and that in the such a way-supporting Governor Stephens' opmay be expected to be active against Governor Stephens. And incidentally it must be concluded that Senator Johnson is not counting on assistance from the State administration in his his California manager.

### That Extra Session and "War"

It would seem to be a far ery from the peace treaty and the late war to the proposed special session of the State Legislature, but nevertheless the two are interwoven so that it can be said that Governor Stephens will not rail that special session until after the peace treaty has been ratified; war. The special session story got so strong among the members of the Legislature that many of them practically had their clothes packed. ready to leave for Sacramento, Governor Stephens takes the ground that we are still at war with I Germany, and that we still have as miles Great Britain, France, Japan and China among the other nations that were sligned against Germany all of which is perfectly concert and according to "Larry" Dolan's Job Hoyle, Lansing and other experts. Being in this the Legislature until after the peace treaty has i

AN FRANCISCO, Jan. 10. been ratified or the state of war ceases to exist | tion. His course of action in the board has not | at all and bake. It will be remembered that many is going to be prepared for that session when it does convene. The last one got away from him

Johnson's Complaint A number of Senator Johnson's friends and well wishers are considerably disturbed over the "blanket me" interview given out by the presidential candidate on the eve of his departure for Washington in the course of which he made a veiled attack upon the chairman of the National Republican Committee, Will H. Hays, and took a pot shot at Eastern Republican leaders. According to the interview Senator Johnson believes he is being badly treated, and in substantiation of the charge cites the instance of the recent Illinois Republican get-together meeting held in Chicago. At a dinner following that gathering the Governor of the State, Frank Lowden, was one of the speakers, but Lowden, being a candidate for President. should not have been asked to address the assemblage, in the opinion of Senator Johnson. General Leonard Wood was also a speaker. Under present conditions it might possibly be quite difficult to find any Republican speaker of national l prominence who did not nurse, openly or secretly. an ambition to occupy the White House. If all Republicans with designs upon the Presidency should have been invited to the Chicago dinner the session would have continued for several days, and this would have been unbearable in this season of Sabaric dryness. Another complaint visit of Chairman Hays to California, it being charged that no invitation had been sent to the senator to speak during the visit. In this connection it is pointed out by the State representatives of the national chairman that the head of in the interest of the Republican party and that are unusually interested is up for discussion. his visit has no connection whatever with the candidacy of any individual or individuals. This is one thing that Hays has conscientiously endeavored to avoid. It is not improbable that the national chairman sits as a guest at many party dinners where he has had no voice in passing upon the names of those invited and the mere fact that Republican candidates speak at these gatherings does not necessarily imply that the head of the Republican organization is committed to their candidacy. Had Senator Johnson been in Califormin of the time of the arrival of Nays it is not unlikely that he would have been asked to make an address at the Tuesday night banquet, his official position as the single Republican United States Senator from California entitling him to such recognition. What worries many of Senator Johnson's friends, who fully realize that without the support of Eastern leaders his candidacy is hopeless, is the Senator's apparent desire to antagonize support that might otherwise be swung in his direction. From all reports Republican Senators have displayed much friendliness toward California's junior Senator and it would appear unnecessary, the Senator's supporters point out, to build up men of straw to attack at this particular juncture. The cases cited, do not, in the opinion of many California Republicans, furnish sufficient basis for such sweeping charges against Lastern Republican leaders of attempts to "blanket and smother" one of the Far Western candidates.

#### That "Keynote" Address

That "keynote" address has been revised from the original form in which it was intended that it gubernatorial campaign of 1918 he performed in should be delivered. It is quite certain that there will be less of the League of Nations than was ponent with such near malignancy—that his resig- originally intended, and a great deal more of nation was peremptorily demanded. Carnahan Johnson's "California Policies." It is probable also comes from San Bernardino. It is not im that Johnson has taken something from the man possible that the desirability has been recognized in those place be is seeking to take in the Republi of an influence there to counteract that which | can party, and that he will declare this pointies and what they have done in California. All during the time that Johnson has been in California exact data upon the laws that Johnson has presidential effort, for he has appointed Carnaban | placed upon the statute books of this State, and how they have worked out. He has gone into the direct primary law, the industrial compensation | law, the State Railroad Commission and its control over public utilities, the "blue sky" law and other pieces of legislation in which he was vitally interested, and he has had prepared a mass of data as to how these laws have worked out in practice. He proposes to call them "My Califormin Policies" and upon these he will go be or until after we have coased to be technically at fore the people of the Last rather than upon his it present well-known stand upon the League of Nations. This is an important decision, and Jourson has been working long and hard upon the decision. And so the public can be prepared for a carego go open "My Cantornia Policies." and at any rate, the State will get come advertisand advertising is supposed to par.

The destroy thates I bear received a sheares position of being at once an abit of Japan and ton the office of Seater of Weights and Measures, China in the war, and the war, to all intents and I who ham identally must be considered a good join purposes being still on, it would in become a State | Gor Supervisor tradagher has gone after it, and to hold a special session of its Legislature and partial known that he is not out for mere lambaste either or both of these particular allies honors. His nomination was promptly made by of ours. So there will be no special session of the mayor, who verbally lambasted three supervisors who had the comage to oppose confirma-

in some official way. Incidentally the Governor been entirely soothing. Perhaps his going of the great breweries of the empire are centers from the municipal legislative body will be the occasion for the usual felicitations, but there will certainly be some to be accused of camouflaging their real sentiments. There seems to have been some question of legality, as after the resolution for his appointment had been introduced, the matter was held in abeyance till the city attorney advised the board as to their powers in the matter. An effort was also made to appoint the late commissioner's widow to the vacancy. However Gallagher had the inside track, and even a charter inhibition was not availing under all the circumstances.

#### Promoting the Board's Dignity

A smile is going around the city hall because of proposed amendments to the rules governing the procedure of the Board of Supervisors. It is announced that these amendments are for the purpose of preserving and promoting the dignity of the members of the board during official sessions. All who have taken account of the criminations and recriminations at almost any session will admit that something might be done to improve things. Especially will such conclusions occur to those who attended the session lasting all afternoon and most of a night, whereat the famous resolution was considered and finally adopted censuring the United States government for enjoining striking coal miners-and that after the | That in the next year he was defeated for the miners had called the strike off. It is announced that decorum is to be maintained and refinement voiced to the interviewer was in reference to the | promoted by a provision that in debate a member shall confine himself to the question and avoid personalities. That is already a rule common to all parliamentary bodies which pretend to observe civilized procedure. To what extent it will restrain certain excitable members. who the Republican organization is to visit California | fairly run amuck when a matter in which they spectators of the board's deliberations are wait-

#### The Late Ben Holladay

The despatch which tells of the removal of the bodies of eight members of the Ben Holladay family from a private cemetery on Ophir farm. the country place of the Whitelaw Reids in New York, failed of striking the most interesting note as 10 a rematkable man. Ben Holladay may bave accumulated great wealth in the Ophir mine, but he was chiefly notable for having been the greatctume couch magnate the country ever saw. When the means of travel across the country was by stages he owned and controlled more lines of this sort of conveyance than any other one man. activities; and foreseeing the sure encroachment of the iron horse he gradually withdrew and essayed to transfer his capital and energies to ships and railroads, with headquarters at Portland. But he did not seem to be as successful in more modern transportation lines. How he was regarded as a stage man is illustrated in a story told by Mark Twain. When the "Innocents Abroad' party was in the Holy Land, having reached the point where Moses was supposed to have emerged from the Wilderness with the Chil dren of Israel, a reverend member tried to impress on a young tourist from the Pacific Coast the ame inspiring fact. The young man was slow to manifest interest, but finally wanted to know how far the Children of Israel had come. This feature of the legend seems not to have been considered by the enraptured reverend, but he hastily calculated that it was as much as two hundred miles. "What!" says the matter-of-fact youngster, "only two hundred miles and forty years in making it? Ben Holladay would have brought them through in forty-eight hours.

## A Lord Among Us

A Problem in Psychology termined that the extra four hours, even with the to say what brand of soap. However, the visitor and his economic ideas are interesting

#### Differentiation in Honors

Dackens, in one of his stories, having dragged l knighted, falls into a discussion of the differentiation between brewers and bakers. He confesses to an inability to understand why a man can be has noble as never was" and brew, yet not noble

ييوالأمران

of noble families, whose exalted status is based on the industry with which they have become identified, while nobody ever heard of any family or anybody being socially exalted by royal decree because of a successful penchant for baking. Soapmakers class with brewers. That industry is at least not as appetizing as baking, yet the heads of several of the great soap manufactories have been knighted. Lord Leverhulme appears to have won his favors through being a great captain of industry, and thus adding to the national wealth and prestige. It is in no sense a disparagement of him to discuss the singular laws and usages that differentiate between industries in the recognition of social distinctions.

#### Lane a Bank President

The friends of Franklin K. Lane-who are many and loyal-will hope that the story that he is to be made the president of a Baltimore bank is true. Lane has a great capacity for making friends. He is a glad hander in the better meaning of the expression. When he ran for governor in 1902 his popularity was such that his election was considered foregone. The fact that he was beaten by Pardee by only 2549, while Rosborough was beaten by Curry for Secretary of State by 48,216, is some indication of his popularity. mayoralty of this city remains one of the inexplicable political mysteries. Though never enjoying striking success at the bar he possessed qualities that were recognized by Roosevelt, who placed him on the court of claims bench. In the national Democratic convention of 1912 he managed it so amiably that he alighted in the Wilson camp. His friends say he was not keen for a cabinet position; and it was generally understood that he was to go on the supreme bench before the Wilson tenure ended. However, that idea has miscarried if it was ever meant. There have been signs that his position in the cabinet was uncomfortable. and now, if he is to enjoy such a high connection as a bank presidency, his considerable good fortune will be hailed with great satisfaction by his friends.

#### Fire Protection for Shipping

The port of San Francisco is taking on new importance as the commerce of the Pacific grows. The harbor facilities, which of course include protection to shipping, in the natural order of things would be increased to keep pace. But just | The protection afforded by the fireboat Dennis | they have no household conveniences or furniture He seemed to possess a genius for that sort of Sullivan is likely to be withdrawn. It is possible -no railroads, factories, mines or mills, no clocks enterprise. When the first overland railroad was I that the boat will be laid up for the remainder completed fifty years ago it put a crimp in his of the fiscal year. Last July an appropriation of \$48,150 was made for its maintenance for one year. It is now found that this appropriation is due to the new wage scale and the reduction quence write no letters. There are no records and tional watch. The expense of maintaining this protection to millions of dollars' worth of shipping was thus nearly doubled. The finance comit isn't interested, and suggests that the problem is one for the fire commission. The tire commission calls attention to the fact that it has no power to raise money-only to spend it; and both bite their thumbs at the Harbor Commission, as and let the State crack it.

### Galli-Curci Divorced

The Galli Curci divorce suit was slow in maturing. Two years ago, when the elfish singer was here, it was well under way. There was such discord in the matrimonial menage that her man ager embargoed the presence of Curci, who railed from a distance, relieving his feelings by wire and I mail across the continent. It seems that each An interesting and important visitor during | was willing for the other to be free, but that there the past week was Lord Leverhulme. He is the was a hitch about property. Galli Curci has been he has had several friends at work digging up head of a \$500,000,000 enterprise, with manu-one of the greatest money-making stars before the to the British labor laws. The case of Joseph J. Robinson is attracting eight, would be worth something like a million, of April, 1918, being the paymaster of the St. of enterprise that Lord Leverhulme stands at the fund thence across the continent, seemingly make with soap. It is considered that it would be an ad I comparable to that of an elephant crossing a plowed field, he was not come up with by the authorities, and finally enlisted, went across, and in in as one of his characters a brewer who had been \$5000 of the stolen money before delivering himself up, and has declared his intent to restore the Manager Keating of the St. Francis the morning would in some degree meet the abuse. after Robinson absconded. Keating was utterly

unable to account for it. The eashier had been in the hotel's employ for a number of years, had been entrusted with and was constantly handling large sums. Robinson himself professes inability to account for his action; and the fact that he brought half the money back makes it a very unusual case. Generally they do not become contrite till they have spent all the money. At this time when probation is so readily extended to the person, and especially the young person, who makes a missiep, it is not improbable that Robinson will be given his chance.

#### After the Ticket Scalpers

San Francisco is not as grievously afflicted with ticket scalpers as New York is, for instance; but it is by no means free from them; and at times, when big attractions come along, there is some irritation from this source. At other times the exactions are petty and are endured as a matter of course. It is considered to be worth the scalper's commission to have tickets delivered at clubs, hotels or other rendezvous, instead of standing in line out on the sidewalk, and then taking Hobson's choice at the wicket. A while ago one of the periodic agitations against scalpers was started, with the result that an ordinance was enacted requiring them to pay a license tax of \$300. They didn't pay it, and kept on scalping. They seemed to have become careless, however, for eight of them have now been arrested. Five of these have squared it by paying up. These arrests brought the same protestations that have characterized all similar proceedings—that the scalpers were not in league with the box offices. The lay public has an indifferent insight of box office management, and is considerably disposed to put its tongue in its cheek and mutter "Ub, huh!" And it is even less disposed to cooperate in the effort to abate the evil than ever, and will go on paying the toll.

#### Exemplification of the Old Days

People who mourn the good old days had a hance to learn what has bappened to a people who have retained their pristine characteristics in the lecture on the Chaldeans before the Commonwealth Club by Rafael Emmanuel. He claims to be a direct descendant of Abraham, and that his family tree roots back to very ancient times. His people might be called one of the Lost Tribes. They wander about, live in tents, and are very religious, though having no Sabbath nor churches Nithon have they a history, a literathe reverse is imminent in at least one particular, i ture, a science, or a regular industry. Incidentally or calendars, no stores or shops, no regular meal time. They have three baths in a lifetime-when they are born, when they marry and when they dic. They cannot keep track of their ages. They will be exhausted by the 20th of this month. This have no postal scheme, and as a natural conseof hours, which made it necessary to set an addi- | no laws. The good old custom of exchanging an eye for an eye and a tooth for a tooth persists. Meat is only eaten once or twice a year, but that is because it is not to be had. They believe immittee of the Board of Supervisors intimates that | Michily in the story of Adam and Eve, and speak of Noah and Abraham as we do of Washington and Lincoln. In short, they appear to be a perfert example of a people who have escaped the demoralizing effects of decadent civilization and progress. They are not cursed with an enslaving much as to say that it is by rights the State's nut. | capitalism, nor hampered by enthralling customs. They are entirely free to cat with their knives. Those who suffer under the exactions of a modern civilization are able to see here that blissful result that they assume would be enjoyed by mankind were it not for the iconoclastic march 'of civilization.

#### **Expert Alienists**

The alienist expert is going over the bumps that the handwriting expert was put over some little time ago. It will be remembered that in the matter of disputed wills the latter scientist figured importantly in times not far gone, though facturing plants scattered over the earth employ- public, and Curci was thriftily able to sequester now his vogue is not so impressive. He was found ing 40,000 workmen. He is unique among em a good deal of it before the songstress placed her to testify in the interest of the side that sumployers in agitating for a six hour day. Surprist affairs beyond his reach. She seems to have been moned him, and to which he had to look for his ing as it may seem, this is opposed by labor lead obsessed with the idea that the husband's dominatives. Very similar phenomena are observable as ers and cannot be realized without an amendment tion of the wife was the same in this country as to the expert alienist.
